WESLEYAN AUTHORISED UNIT TRUST

ANNUAL FUND MANAGER REPORT
& AUDITED FINANCIAL STATEMENTS
30 JUNE 2019

DIRECTORS

AHMED FAROOQ BSc, ACMA, DIP IoD
CHAIRMAN
WESLEYAN UNIT TRUST MANAGERS

On 15 March 2018, Ahmed was appointed Chairman of WUTM and on 8 August 2018, became a Director of Wesleyan Assurance Society.

Ahmed became Chief Financial Officer in November 2015, after holding a number of senior roles at Wesleyan. He joined the Society in 2010 from the Phoenix Group and became Head of Finance in 2011, and Managing Director of Wesleyan's General Insurance division in 2014.

ROBERT VAUDRY MBA
CEO*
WESLEYAN UNIT TRUST MANAGERS

On 15 October 2018, Robert Vaudry was named Chief Executive Officer of Wesleyan Unit Trust Managers, having been a board Director since 1 February 2018.

Robert has worked in investments for 30 years, spending most of his career in senior leadership roles at multinational investment banks and wealth management firms. Currently the Chief Investment Officer at Wesleyan, Robert's former roles include Managing Director and Head of Asian Research at Morgan Stanley, and Global Head of Research at HSBC.

Prior to joining Wesleyan, Robert was Senior Partner at Quotidian Investments, winning multiple awards for fund and wealth management.

Robert has a keen interest in global politics. After graduating with a degree in Politics and Parliamentary Studies in 1987, he spent four years working as Political Secretary to the former Prime Minister, Sir Edward Heath. He also worked on Capitol Hill for former US Congressman Bill Gradison.

*The following changes to the Board of Wesleyan Unit Trust Managers Limited came into effect on 5 September 2019: Robert Vaudry stepped down as Chief Executive Officer and Board member.

MARTIN LAWRENCE BSc, ASIP
DIRECTOR
WESLEYAN UNIT TRUST MANAGERS

On 21 April 2016, Martin was appointed to the board of Wesleyan Unit Trust Managers as a Director.

Martin has more than 20 years' experience in investment management, having worked in the industry since graduating from the University of Exeter with a degree in Mathematics. He manages a number of funds including Wesleyan's With Profits Fund, which is currently valued at over £3.5bn, and he is directly responsible for £4bn of the Society's assets.

Martin invests directly in UK and overseas equities, government and corporate bonds, cash, and UK property. He takes a long-term investment approach and keeps our customers and members front-of-mind at all times, having worked at Wesleyan since 1995.

FUND MANAGERS

JAMES HUBBARD, BA, CFA
WESLEYAN INTERNATIONAL GROWTH FUND
WESLEYAN MODERATE-HIGH RISK/REWARD INCOME FUND

James Hubbard joined Wesleyan as an Investment Analyst in January 2011. After graduating with an MA in Economics and Business from the University of Manchester he initially worked for a Corporate Bank in London. James is a CFA (Chartered Financial Analyst) charterholder and has been a Fund Manager since April 2016.

MARTIN LAWRENCE, BSc, ASIP
WESLEYAN MODERATE RISK/REWARD GROWTH FUND

Martin Lawrence has been a Fund Manager since 2001, and has overall responsibility for managing several equity and multi-asset funds. He joined the Society as an Investment Analyst in 1995 and is a fully qualified Associate of the CFA Society of the UK. Martin is Head of Investment Research at Wesleyan and is backed by a team of Fund Managers and Analysts who are market sector specialists.

PAUL BURTON, BSc, FIA
WESLEYAN LOW RISK/REWARD GROWTH FUND

Paul Burton has been the Fund Manager of the Low Risk Life and Pension funds since launch in January 2012. He has also managed the assets of the Wesleyan Staff Pension Scheme since 1998, and the Society's Non Profit fund since 2012. He joined the Society in 1990, qualifying as an actuary in 1998, working as an investment analyst in the preceding five years.

MARC O'SULLIVAN, BSc, CFA
WESLEYAN RISK AVERSE FUND
WESLEYAN UK GROWTH FUND

Marc O'Sullivan has been a Fund Manager since 2012, managing investments across a number of asset classes. Marc joined the Society as an Investment Analyst in 2003, having graduated from the University of Birmingham with a degree in Economics. Marc has been a CFA (Chartered Financial Analyst) charterholder since 2008.

“We would be doing our clients a disservice if we did not match their levels of dedication and responsibility by investing their money wisely, with the aim of maximising their financial returns over the long term.”

Ahmed Farooq
Chairman

CHAIRMAN'S STATEMENT

At Wesleyan, we are dedicated to helping some of the UK's most trusted professionals – doctors, dentists, teachers and lawyers – by providing financial products, services and advice tailored to their needs. Wesleyan Unit Trust Managers (WUTM) forms a key part of this offering, giving our members and customers more options when it comes to investing their money.

Through WUTM, we offer six advised funds designed to cater for the various risk appetites and financial goals among those who choose to invest with us: International Growth Fund on page 9, Low Risk/Reward Growth Fund on page 22, Moderate–High Risk/Reward Income Fund on page 40, Moderate Risk/Reward Growth Fund on page 59, Risk Averse Fund on page 78 and the UK Growth Fund on page 88. You can invest in the six aforementioned funds via three products: a Unit Trust Investment Account, a Unit Trust Individual Savings Account (ISA), and a Unit Trust Junior ISA.

Our in-house fund management team has an impressive track record in achieving strong returns for our customers, and they continuously strive to outperform the markets across all funds. With a consistent management style, our Fund Managers have a firm belief that the impact of any short-term market volatility can present numerous investment opportunities that offer promising potential for long-term growth. This is why we are strong advocates

of a long-term investment view, and why we recommend that any of our clients or prospective clients should only look to invest with us if they can do so for a minimum of five years. Furthermore, our philosophy has been recognised by a number of industry awards. Most recently, these include 'Investment Strategy of the Year' (2018) and 'Active Manager of the Year' (2017) at the Insurance Asset Management Awards.

June 2019 marked the three-year anniversary of our refreshed unit trusts, which means that – for the first time – we are able to share the three-year Investment Association (IA) sector comparisons alongside each fund, to give you an idea of how our funds have performed against their respective sectors. Despite turbulent economic conditions, we have seen strong performance across our funds when compared to the wider market. The information in this report also gives you an in-depth understanding of each fund's portfolio holdings, a summary of market activities that have shaped performance, and a view from the associated Fund Manager.

This is all particularly noteworthy for this report, given that the UK is due to leave the EU in the very near future. Though there may be significant economic and political shifts in the months that follow the UK's EU departure, we are not alone in our belief – among the professional investor community – that a firm resolution should, over time, help to reduce market uncertainty which has hindered the

UK's economic performance and investment environment during the last few years.

However, it is worth noting that our funds maintain diverse portfolios within and across asset classes (equities, government bonds, corporate bonds, property and cash), in addition to benefiting from exposure to investments across the globe. This diversification, combined with our 'buy and hold' strategic fund management approach, helps to ensure our funds are well-positioned for any potential market volatility, both in the UK and overseas, which is particularly important at present.

Our members and customers are some of the most respected individuals in society, whether they are teaching and supporting others, caring for patients who require medical attention or providing legal services and representation. We would be doing our clients a disservice if we did not match their levels of dedication and responsibility by investing their money wisely, with the aim of maximising their financial returns over the long term. This continues to be our overarching objective, which we are committed to fulfilling, and we continue to take pride in doing so.

A. Farooq

AUTHORISED FUND MANAGER REPORT

INTRODUCTION

This is the annual report of the Wesleyan Authorised Unit Trust ('Trust') for the year ended 30 June 2019.

The Trust is managed by Wesleyan Unit Trust Managers Limited ('Manager').

The Trust is an authorised unit trust in an umbrella form and was authorised by the Financial Conduct Authority (FCA) effective 4 September 2015. The Trust is classified under the Collective Investment Scheme Sourcebook ('COLL') as a collective investment scheme authorised under the UCITS Directive.

The Trust was established pursuant to a Trust Deed dated 4 September 2015 (as amended from time to time) made between the Manager and HSBC Bank Plc ('Trustee'). The Trust has an unlimited duration.

Details of the managers and advisors of the Trust are disclosed on page 145.

STRUCTURE OF THE TRUST

The Trust is structured as an umbrella unit trust, in that different funds may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed.

The assets of each fund will be treated as separate from those of every other fund and will be invested in accordance with the investment objective and investment policy applicable to that fund.

Each fund has a specific portfolio to which that fund's assets and liabilities are attributable. So far as the Unitholders are concerned, each fund is treated as a separate entity. Unitholders are not liable for the debts of the Trust or for any other fund.

Subject to the above, each fund will be charged with the liabilities, expenses, costs and charges of the Trust attributable to that fund, and within each fund charges will be allocated between classes in accordance with the terms of issue of units of those classes. Any assets, liabilities, expenses, costs or charges not attributable to a particular fund may be allocated by the Manager in a manner which it believes is fair to the unit holders generally. This will normally be pro rata to the Net Asset Value of the relevant funds.

The base currency of each fund is pounds Sterling.

As at 30 June 2019, the Trust comprised of the following funds:

Wesleyan International Growth Fund

Wesleyan Low Risk/Reward Growth Fund

Wesleyan Moderate-High Risk/Reward Income Fund

Wesleyan Moderate Risk/Reward Growth Fund

Wesleyan Risk Averse Fund

Wesleyan UK Growth Fund

All of the above funds are managed by the Manager. Details of other management and advisors of the funds are disclosed on page 145.

UNITS

The rights represented by units are those of a beneficial interest under the Trust. Several classes of units may be issued in respect of each fund.

Further classes of units may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed. On the introduction of any new class, a revised prospectus will be prepared, setting out the details of each class.

Units in the Trust are not currently listed on any investment exchange.

Holders of income units are entitled to be paid the distributable income attributed to such units on any relevant interim and/or annual income allocation dates. The Manager, at its discretion, may also permit unit holders to elect to reinvest any such distributable income instead of receiving payment. In this event, the income will be used to purchase additional units in the same fund.

Holders of Accumulation units are not entitled to be paid the income attributed to such units, but that income is automatically transferred to (and retained as part of) the capital assets of the relevant fund on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation unit.

UNITS IN ISSUE

As at 30 June 2019, Accumulation ("Acc") and Income ("Inc") units are available in the following funds and in the following denominations and classes:

Fund Class	Unit Type	Base Currency	Launch Date	ISIN
Wesleyan International Growth Fund				
Class A	Acc	GBP	03/06/16	GB00BYNYHT49

Class B	Acc	GBP	03/06/16	GB00BYNYHR25
Class X	Acc	GBP	03/06/16	GB00BYNYHS32

None of the above funds hold units in other funds of the Trust.

AUTHORISED FUND MANAGER REPORT continued

UNIT HOLDERS – TAXATION

The information below is a general guide based on current United Kingdom law and HM Revenue & Customs practice which are subject to change. It summarises the tax position of the funds and of direct personal investors who are United Kingdom residents and hold units as investments. This does not detail the tax treatment for corporate or trustee unit holders.

INCOME

The funds may pay dividend distributions (which will be automatically retained in the relevant fund in the case of accumulation units). There is currently a tax free dividend allowance above this allowance from investments not held within an Individual Savings Account are taxed at a rate that depends on the investor's income tax band.

INTEREST

Where a fund pays an interest distribution (which will be automatically retained in the fund in the case of accumulation units) this is gross of the basic rate of tax from 6 April 2016 for some people (depending on their tax bands).

There is currently a tax free Personal Savings Allowance (except for additional rate tax payers). Interest distributions received above this allowance from investments not held within an Individual Savings Account or Junior Individual Savings Account are taxed at a rate that depends on the investor's income tax band.

INCOME EQUALISATION

The first income allocation received by an investor after buying units may include an amount of income equalisation, which will be shown on the issued tax voucher. This is effectively a repayment of the income equalisation paid by the investor as part of the purchase price. It is a return of capital, and is not taxable, rather it should be deducted from the acquisition cost of the units for capital gains tax purposes.

CAPITAL GAINS

Unit holders may be liable to capital gains tax on gains arising from the redemption, transfer or other disposal of units. The rate of tax, and available reliefs, will be as applicable from time to time. An exchange of units between classes within a fund is generally not treated as a disposal for this purpose.

Units in each of the funds may be held within Individual Savings Accounts and would be exempt from personal liability to income or capital gains tax. Unit holders who have invested

in the funds through an Individual Savings Account or Junior Individual Savings Account should refer to the Key Features Document for further details of how it operates.

ASSESSMENT OF THE RISK RELATING TO THE UK EXITING THE EUROPEAN UNION (BREXIT)

The Authorised Corporate Director (ACD) has been managing a Brexit plan for the past two years. Early in the process we decided to concentrate on ensuring that we should be prepared for the worst case scenario. Often referred to as a hard Brexit, this is where the UK leaves the EU with no deal and no transition period. This approach ensures that we are well placed for any political eventuality.

We identified all Supplier relationships where services are provided from the European Economic Area (EEA). We have received confirmation from all suppliers that services will be unaffected in a no deal, no transition scenario.

The Funds are not actively sold to any investors in the EEA outside of the UK.

REPORTING DATES

The annual and interim accounting date of the Trust and the funds within are as below:

Annual accounting date: 30 June

Interim accounting date: 31 December

The following pages sets out for each of the funds within the Trust:

- ▶ Fund manager report
- ▶ Number of units in circulation and the net asset values per unit
- ▶ Annual financial statements

This annual report of the Trust and the funds within are available on our website (www.wesleyan.co.uk/Report). If you have any questions about the report, or if you would like to talk to us about your investments, you can call us on **0330 123 3813**. Lines are open Monday to Friday from 9.00am to 5.00pm.

Wesleyan Unit Trust Managers Limited

WESLEYAN INTERNATIONAL GROWTH FUND

FUND REVIEW

This is the full-year report for the Wesleyan International Growth Fund covering the year to 30 June 2019. The underlying unit price performance generated a return of 10.85% compared to the IA Global sector that returned 7.50%*.

Equity markets have performed strongly over the year, albeit not in a straight line. There was a material market sell-off between October and December as concerns regarding the China-US trade negotiations panicked the market and because some of the economic data began to slow. Apparent progress on trade discussions and accommodative monetary policy stances from central banks across the globe encouraged equity markets to generally expand their valuations in the six months ending 30 June 2019.

The fund outperformed the IA Global sector by 3.4% over the period, driven largely by the final six months. Good performances from existing and recently added holdings contributed meaningfully to results. The most significant contribution was the fund's largest holding, Microsoft, up 40% over the period. Strong performances came from other core holdings such as cosmetics-focussed Estée Lauder, luxury goods company LVMH and payments company PayPal. A new position in Facebook, mentioned in the half-year report, contributed strongly despite finishing 2018 on a weaker note as privacy and break-up concerns peaked.

There were some disappointments – detractors from fund performance included European bank Société Générale,

adhesives and household products maker Henkel and automotive manufacturer BMW. European banks as a group continue to be remarkably weak, trading at 2008 levels, which in our view has been largely driven by negative interest rates across the region that create fundamental headwinds to the banking sector. Automotive companies also face both structural and cyclical headwinds – fundamentally, the world is moving to electric vehicles, forcing up-front investment despite uncertain levels of expected profitability or market structure.

There were several new positions in the fund, including Ashoka India Equity Investment Trust. In terms of sales, the fund sold out of BHP Billiton as the share price had risen strongly. The fund sold Spanish construction company ACS Actividades as strong price appreciation and our perception of increased cyclical risks meant we could allocate funds elsewhere.

The full list of portfolio holdings can be found later in this report.

FUND OUTLOOK

In April 2019, companies, economists and strategists were working on the belief that the world economy was going to improve between July to December 2019 as the US-China trade war was likely to resolve itself (or at least not escalate), and the tougher comparisons would be behind us. After multiple company meetings and reviews of market expectations, it has become clear that neither companies nor economists are generally expecting the previously forecast recovery in the second half. Furthermore, there is evidence that the global industrial economy has

become more challenged as economic data has softened. The extent to which the slowdown in the industrial economy can spill over into the consumer economy is unclear – we remain watchful for signs that might begin to occur.

Post the period ending 30 June 2019, July and August saw an escalation of the US-China trade dispute, with the US threatening to increase tariffs on an additional \$100bn of Chinese imports from 1 September 2019, which saw stock markets fall to reflect the increased risks present. Almost as important as the direct tariffs, indirect negative effects included the damage to business confidence reflected through a lower willingness to invest in people, inventory and expansion initiatives so long as the uncertainty remains.

Global government bond values have risen significantly in a flight to quality, defensive assets. The low yields of these assets suggest harder times are likely to follow; however, corporate credit and equity markets do not confirm the analysis. It remains unclear which market is pricing the future correctly. We retain the view that equity markets hold significantly more long-term capacity to produce returns for investors over the medium and long term. Globally, central banks have moved into a more accommodative policy, with the cessation of quantitative tightening in the US and the US Federal Reserve cutting their funds rate by 0.25% in July.

Volatility has, after the period under review, begun to resurface and has begun presenting some opportunities. As we have previously reiterated, the portfolio remains positioned in companies whose earnings, in our view, are relatively resilient.

WESLEYAN INTERNATIONAL GROWTH FUND continued

GENERAL INFORMATION

Investment objective and policy

The Fund aims to provide capital growth over the medium to long term.

The Fund will invest predominantly in a diversified portfolio of equities.

The equities in which the Fund invests may be issued by companies anywhere in the world. The Fund may invest in various sectors.

The Fund may also invest in fixed interest and other transferable securities, cash, near cash, deposits, money-market instruments and other collective investment schemes.

The Fund may use derivatives for the purpose of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year.

The fund's value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund's future risk and reward category.

A fund in the lowest category does not mean a 'risk free' investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund's Key Investor Information Document (KIID).

Corporate unitholders' information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN LOW RISK / REWARD GROWTH FUND

FUND REVIEW

This is the full-year report of the Wesleyan Low Risk/Reward Growth Fund covering the year to 30 June 2019. The underlying unit price performance generated a return of 3.76% over the period compared to the IA Mixed Investment 0%-35% Shares sector average of 3.20%*.

This 12-month period was one of two halves. Whilst the last six months of calendar year 2018 saw the fund's return of -2.75% very marginally ahead of the sector's -2.78%, these negative returns were more than turned around in the following six months with the fund's return of 6.69% well ahead of the sector's 6.14%.

Whilst this represents a very strong period of absolute returns, the current low level of bond yields means that future numbers of this magnitude could be harder to achieve.

The fund's strongest outperformance came in the first three months of 2019, as we shortened the duration of the gilt portfolio in expectation of a successful end of March resolution to the UK's withdrawal from the European Union (EU). Our belief was that, on an agreement being reached between the UK and the EU, gilt yields would rise and hence prices would fall. The failure to reach such an agreement led to gilt yields falling, and so prices rising, alongside the replacement of Theresa May with Boris Johnson as Prime Minister and a new deadline of 31 October 2019 being set to leave the EU.

After a very strong period of relative outperformance against indices by the

fund's UK equity portfolio in 2018, recent performance has been mixed and the equity portfolio has not performed as well as we would have liked relative to the market. However, it should be noted that in a mixed fund such as the Low Risk/Reward Growth Fund, the overall performance will be a mix of performance in its three main asset categories of equities, UK government bonds (gilts) and corporate bonds.

During the period we continued to seek profits from trading gilts and this contributed to the strong performance. It should be noted, however, that the recent move down in yields is likely to make such opportunities difficult to find in the short-term future.

Purchases of corporate bonds were made in good quality companies including blue chip names Apple, HSBC and global consumer brands group Unilever, European banking group ING and international provider of mobility and logistics services Deutsche Bahn. A purchase was also made in a higher-yielding bond issued by Lloyds of London whose longevity in the global insurance market gives us confidence of their strong financial credentials.

The full list of portfolio holdings can be found later in this report.

FUND OUTLOOK

The likelihood of a hard Brexit, as well as a general election, has increased in recent months, with the new Prime Minister's stated strategy of a determination to take the UK out of the EU either with or without a deal.

At the time of writing, gilts are valued at

close to all-time low yields, with the highest available yield close to 1%. This suggests future economic growth is likely to be subdued. This is not just the case in the UK, with it being widely reported that between a quarter and a third of the global bond market is standing on negative yields. Notably, the entire German government bond market currently trades on sub-zero yields.

Spreads on corporate bonds have tightened this year, limiting the potential for enhancing nominal returns by taking on extra managed risk. We believe that, over the long term, gilt yields will rise to at least be above the Bank of England's consumer price inflation target of 2%. However, short-term issues suggest that such a move will take time to be reached.

We still see better value in equities (predominantly UK) rather than bonds and so our current strategy is to position the fund towards the upper end of its permitted 35% ceiling whilst holding bonds of short duration. As yields move higher we will look to lengthen the bond portfolio's duration.

In the short term, we may take tactical positions in longer-dated bonds to seek to profit from short-term movements, but the main strategy is to predominantly invest in shorter-dated bonds. This is illustrated by recent purchases of six-month Treasury bills yielding 0.75%, rather than gilts maturing in five years but only yielding around 0.35% per annum.

As ever, we will look to take advantage of any volatility to take positions with long-term investment in mind.

* Source: Financial Express. Return shown is the X-Class Accumulation series, bid prices at noon.

GENERAL INFORMATION

Investment objective and policy

The aim of the Manager is to provide capital growth over the medium to long term, principally through investments in a diversified portfolio of government and corporate bonds, UK and international equities, and cash.

Investment will generally be made in Sterling denominated assets but the Fund may at the Manager’s discretion invest in non-Sterling denominated assets.

The fund may also invest in other fixed interest and transferable securities, near cash, deposits, money-market instruments and other collective investment schemes.

More than 35% of the fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The risk category is based on the rate the fund’s value has moved up and down in the past.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund’s Key Investor Information Document (KIID).

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% unfranked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN MODERATE-HIGH RISK / REWARD INCOME FUND

FUND REVIEW

This is the full-year report for the Wesleyan Moderate-High Risk/Reward Income Fund covering the year to 30 June 2019. The underlying unit price performance generated a return of 2.32% compared to the IA Mixed Investment 40-85% sector that returned 3.62%*.

Global equities started the period from 1 July 2018 well, before beginning a decline a few months later in October as the trade dispute between the two largest global economies, the US and China, showed signs of escalation. Having fallen in December 2018, the stock market rallied in the new year, as concerns eased. Central banks across the globe exuded a willingness to be increasingly accommodative and economic data proved more robust than some had feared (particularly US GDP).

While aggregate global equity markets may have risen 10.1% in Sterling terms, the biggest drivers of performance have been defensive equity sectors (Utilities, Healthcare and Telecommunications) as the market has trended towards a more risk-averse position. In contrast, the UK equity market returned only 0.6% and, while the Healthcare sector outperformed the market, the Telecoms and Utilities sectors underperformed.

After successive failures to get the Withdrawal Agreement with the EU through Parliament, Boris Johnson became the likely candidate to succeed Theresa May as Prime Minister, several months before it became official in July 2019. This increased the perception of the likelihood of a no-deal Brexit, which can be observed through the weakness in Sterling from December 2018 to June 2019 and continued to dampen sentiment towards the UK equity market. Over the year to June 2019, government bonds, corporate bonds and index-linked bonds in the UK performed strongly, up

4.9%, 6.8% and 8.6% respectively.

The fund has underperformed its peer group over the period by 1.3% but did well to maintain that level of performance given its UK bias. (UK equities are approximately two thirds of the fund compared with around one fifth for the sector.) The fund had some strong equity performances that helped offset the geographic disadvantage.

Within the fund's UK equities, defensive Healthcare and Consumer Staples have been the best-performing sectors, driven by strong performances from consumer goods maker Unilever, beverages company Diageo and medical technology company Smith and Nephew. The fund also benefitted from some good performances posted by accounting and tax software provider Sage and information and analytics company RELX. Strong contributions also came from four out of the five largest overseas holdings: Microsoft, payroll company ADP, insulin maker Novo Nordisk and cosmetics company Estée Lauder. Negative contributions came from travel company TUI AG, pharmaceutical and life sciences company Bayer and household products company Henkel.

The performance of the fund's fixed income holdings, both government and corporate bonds, struggled to keep up with the market's strong performance because the length of time outstanding on the bonds in the portfolio was shorter than that of the market. The reason the fund was positioned as such is simple – it was difficult to see value in lending the UK government money for 10 years at approximately 1.3% a year, especially when the prevailing circa 3% inflation expectations were considered.

Notable portfolio changes include adding to the modest Oil and Gas positions of the fund through purchases of BP and Royal Dutch Shell "B" shares, as weakness in the

sector in the first half of calendar year 2019 presented an opportunity. The fund sold The Renewables Infrastructure Group and 3i Infrastructure as they are defensive assets that had performed particularly strongly. A takeover bid was announced for the fund's holding in Merlin Entertainment in the period.

The full list of portfolio holdings can be found later in this report.

FUND OUTLOOK

Equity markets have declined since 30 June 2019, while the strength in government bond markets across the globe has accelerated as investors rush to defensive assets. Thinking back to March, many companies were guiding towards a stronger performance in July to December, but much of this positive sentiment has evaporated as the US and China have continued to escalate their trade dispute.

Some leading indicators have softened, particularly in the manufacturing sectors. Headline GDP data or unemployment levels in the US have not yet seen material deterioration, but we are seeing patches of slowdown in Asia and Europe.

Brexit uncertainty remains the major risk factor affecting the UK market – in our view, a resolution should calm investors. The markets are today pricing in a higher risk of a no-deal Brexit given the firm statements from Prime Minister Johnson that the UK will leave the EU on 31 October. The UK market today looks conservatively valued, despite slowing global economic data, suggesting there may be scope for positive performance in the coming years.

Volatility in major markets has materially picked up during August and there remains a cash component to the fund that stands ready to be utilised, should the right opportunities present themselves.

GENERAL INFORMATION

Investment objective and policy

The aim of the Manager is to provide a competitive level of income, together with the potential for long term capital growth, principally by investing in UK and international equities (largely dividend paying) with the remainder largely invested in fixed interest securities.

The Fund may also invest in other transferable securities (including non-UK equities), cash, near cash, deposits, money-market instruments and other collective investment schemes.

More than 35% of the fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

The Fund may use derivatives for the purpose of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The risk category is based on the rate the fund’s value has moved up and down in the past.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund’s Key Investor Information Document (KIID).

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN MODERATE RISK / REWARD GROWTH FUND

FUND REVIEW

This is the full-year report of the Wesleyan Moderate Risk/Reward Growth Fund covering the year to 30 June 2019. The underlying unit price performance generated a return of 1.44% compared to the IA Mixed Investment 20-60% Shares sector average of 2.89%*.

Equity market returns notably improved at the start of 2019 and global stock markets more than recovered the heavy falls endured during the closing months of 2018. Mirroring this improved sentiment, the fund's performance was much stronger in the six-month period to June 2019.

2019 started on a cautious note, partly reflecting weaker Chinese economic data. Nevertheless, positive US-China trade talk developments changed market sentiment for the better, despite regular threats by the US to impose further tariffs on China, and other countries too. These tactics, favoured by President Trump, have become increasingly familiar to investors in global markets.

Mixed early 2019 economic data in the US, relating to employment and inflation, triggered Federal Reserve discussions which called time on their 2018 programme of steady interest rate rises. Further, by pausing the unwind of quantitative easing, they painted a picture that US interest rates had probably peaked. The US bond market duly took its cue and the yield on the 10-year US government bond tumbled from 'over 3%' to 'below 2%' as Federal Reserve chair, Jerome Powell, sounded increasingly receptive to US rate cuts later in 2019.

In other bond markets, reflecting weakening global economies and some safe-haven buying by nervous investors, the UK 10-year gilt yield fell below 1%, whilst the equivalent bond

in Germany turned negative. The outgoing President of the European Central Bank, Mario Draghi, highlighted downside risks to European economies and held out prospects for additional interest rate cuts and further monetary stimulus in the second half of 2019.

News flow in the UK during the first half of 2019 continued to be dominated by politics. Theresa May failed to receive Parliamentary approval for her Brexit Withdrawal Agreement on three occasions, ultimately leading to her resignation as Prime Minister. Nevertheless, the value of Sterling started to edge higher as the market interpreted the deferral of the exit date as a sign that the prospects for a soft Brexit were perhaps increasing.

Economically, the UK continued to drift as Brexit-related uncertainty permeated into spending and investment decisions by consumers and businesses alike. Weak high street retail sales and muted house price growth became compounded by a weakening manufacturing sector as the temporary boost from stockpiling goods, seen in the first quarter of 2019, began to fade. Underlying inflation remains close to its 2% target, but the UK economy remains reliant on the service sector.

In early 2019, the fund took advantage of depressed stock markets and made successful investments into the shares of a variety of companies including Apple (technology giant), Ferguson (builders' merchant), Vodafone (telecoms) and the pharmaceutical giants AstraZeneca and GlaxoSmithKline. Profits were taken in Britvic (beverages), Taylor Wimpey (house builder), Kering (luxury goods) and leisure stocks Whitbread, Nike and adidas. In fixed income, the fund profited from some short-term trading opportunities which

presented themselves in longer-dated UK government bonds. Just one corporate bond was purchased, a very short-dated Coventry Building Society fixed bond.

The full list of portfolio holdings can be found later in this report.

Fund Outlook

The removal of Brexit-related uncertainty remains a key area of focus for UK investors. With Boris Johnson now installed as the new Prime Minister, markets are scrutinising every statement he makes and the prospect of a hard Brexit has risen, as has the chance of a snap general election. Prime Minister Johnson stands resolute that the UK will exit the European Union on 31 October. The value of Sterling has declined further and is once again serving to boost the value of overseas assets from a UK investor's perspective.

Through a global lens, economic data has notably cooled. However, due to equity valuations still appearing good value in some markets, such as the UK, we anticipate more meaningful returns in the years ahead. Other than their safe-haven status for investors, we see very limited value in holding longer-dated UK government bonds, as yields are exceptionally low and they offer no inflation protection for investors. Similarly, we will be very selective with corporate bond purchases as the returns currently available provide little incentive to invest aggressively.

As a reminder, this fund is managed for the long term and in these highly uncertain times the benefits of having a diversified investment portfolio are perhaps more important than ever.

WESLEYAN MODERATE RISK / REWARD GROWTH FUND continued

GENERAL INFORMATION

Investment objective and policy

The Fund aims to provide capital growth over the medium to long term.

The Fund will invest predominantly in a diversified portfolio of UK and international equities, government bonds, corporate bonds and cash.

Investments will be made across various sectors and may include companies anywhere in the world.

The Fund may also invest in other fixed interest and transferable securities, near cash, deposits and money-market instruments and other collective investment schemes.

More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year.

The fund's value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund's future risk and reward category.

A fund in the lowest category does not mean a 'risk free' investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund's Key Investor Information Document (KIID).

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN RISK AVERSE FUND

FUND REVIEW

This is the full-year report of the Wesleyan Risk Averse Fund, covering the year to 30 June 2019. The underlying price of units in the fund increased by 2.36% over the period.

As previously communicated to unitholders – on 21 January 2019 the fund moved sector from the IA Short Term Money Market Sector to the IA UK Gilts sector. As a result of this transition there is no directly observable comparison for the review year. However, it is worth noting that unitholders benefitted from the fund switching its short-term cash deposits into UK government gilts – as the return generated by the fund during the year comfortably exceeded the 0.27% return generated by the IA Short Term Money Market Sector*.

The fund's assets were switched into a selection of relatively short-dated UK gilts in January. This was a conscious decision to minimise unitholders' exposure to long-dated gilts, which have the potential to exhibit more price volatility than we currently feel is warranted for a 'risk-averse' fund. A key feature of gilts is the relationship between prices and yields, i.e. as gilt prices rise – the associated yields fall correspondingly. This inverse relationship between prices and yields is even more pronounced for gilts with long maturity dates and, in the intervening

period from 21 January to 30 June 2019, longer-dated gilts outperformed their shorter-dated peers due to heightened geopolitical uncertainty.

Despite the uncertain backdrop of a change in Prime Minister, and increasingly-protracted Brexit posturing, the UK continued to produce robust economic data. Inflation, as measured by the annual change in the Consumer Prices Index (CPI), exceeded the 2% level targeted by the Bank of England's Monetary Policy Committee for much of the year. The unemployment rate improved over the period and, at less than 4%, is currently at a level last reached in 1975. Wage growth also strengthened over the year to 30 June, with average pay increases running at almost twice the rate of CPI inflation. However, the seemingly ever-present shadow of Brexit cast a cooling shade over certain areas of the UK economy, such as construction and manufacturing, resulting in a period of slight economic contraction in the second quarter of 2019.

The full list of portfolio holdings can be found later in this report.

Fund outlook

At the current juncture, financial markets remain highly sensitive to global geopolitical developments. Although Brexit often dominates the domestic

news agenda, rhetoric relating to the US-China trade war is clearly affecting global growth expectations and this cumulative build-up of uncertainty has created additional demand for safe-haven assets such as gilts. With gilt prices in the ascendency, the available yield for investors has fallen significantly in recent months, underpinned by increased investor confidence that global central banks will provide monetary stimulus where they feel it is warranted.

In the face of prevailing geopolitical uncertainty, long-dated gilts have been the main beneficiary of investor anxiety, outperforming the shorter-dated gilts held in the fund. It is also worth pointing out that there have been occasions in recent weeks where investors have been unable to purchase any gilt yielding more than 1%, a stark reflection of the current growth concerns harboured by financial markets. With CPI inflation exceeding 2%, it creates a situation whereby gilts may only provide investors with a yield that is roughly half of the increase in the cost of living. If favourable progress is made to either unblock the ongoing Brexit impasse, or alleviate simmering tensions inherent in the US-China trade negotiating process, then investor optimism is likely to be rekindled. Available yields could begin to rise if the market begins to anticipate brighter prospects for future economic growth.

GENERAL INFORMATION

Investment objective and policy

The Fund aims to provide an attractive level of yield together with a high level of capital security.

The Fund will invest predominantly through Sterling denominated (or hedged back to Sterling) government backed securities, with a rating the same or higher than that of the UK, with at least 80% invested in UK government securities (Gilt).

The Fund may also invest in other fixed interest and transferable securities, near cash, deposits, money-market instruments and other collective investment schemes.

More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund’s Key Investor Information Document (KIID).

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% unfranked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN UK GROWTH FUND

FUND REVIEW

This is the full-year report of the Wesleyan UK Growth Fund covering the year to 30 June 2019. The underlying unit price fell by 2.55%, slightly more than the IA UK All Companies sector average which declined by 2.19%* over the same period.

UK equities were subjected to a challenging and volatile journey in the 12-month period. Having fallen in August 2018, on news that President Trump was intending to move ahead with his plan to impose significant trade tariffs on China, stock markets accelerated their declines in the final quarter of 2018 as global growth concerns continued to push share prices lower. Investors returned from the festive period with a renewed sense of optimism, and 2019 began with a much-welcomed period of market respite, even though the UK repeatedly wrestled with Parliament's unwillingness to approve the Brexit Withdrawal Agreement.

Despite political manoeuvrings at Westminster ultimately leading to the resignation of Theresa May as Prime Minister, the UK economy, somewhat surprisingly, performed robustly during the period. Inflation, as measured by the annual change in the Consumer Prices Index, remained close to the 2% target level for most of the year. The UK also maintained an unemployment rate of approximately 4% during the year,

an impressively low level last reached in 1975. Another bright spot for the UK economy was strengthening wage inflation, a feature which helped to propel consumer spending and retail sales. Brexit concerns did manage to curtail the growth prospects for particular sectors of the economy, such as construction and manufacturing, as well as deterring investment activity into the UK. These Brexit-related side effects combined to cause a modest economic contraction in the second quarter of 2019.

During the reporting year, the fund disposed of its holding in biotech company Shire, ahead of its impending takeover by a Japanese peer. Profits were also taken in AstraZeneca, another pharmaceutical company, and Rio Tinto, a global mining company, on the back of strong share price performances. The fund made purchases of conglomerate Associated British Foods (food producer and owner of Primark) and sought to gradually increase exposure, on bouts of weakness, to companies more reliant on the UK economy such as Lloyds Banking Group and Persimmon. Encouragingly, takeover bids were announced for telecoms company KCOM and theme park operator Merlin Entertainments during the year to 30 June 2019.

The full list of portfolio holdings can be found later in this report.

Fund Outlook

As we approach 31 October 2019, the impending deadline to ratify the EU Withdrawal Agreement, the political landscape in the UK will continue to evolve, and at pace. Faced with such significant uncertainty, UK stocks have underperformed their global peers in recent months. This is a stark reminder of the importance being placed by investors on the need for clarity on the path the UK will choose to break the current impasse.

Uncertainty often inhibits consumer optimism, corporate expenditure and global trade, the three key pillars of economic growth. Resolutions to prominent issues such as Brexit, and the protracted trade dispute between the US and China, would, in all likelihood, help to alleviate some of the growing concerns being harboured by financial markets about the prospects for future economic growth.

Progress on the Withdrawal Agreement, in particular, will have a material bearing on the perception of UK financial assets and Sterling, which currently appear to be unfavoured by international investors. Market volatility will inevitably be a central feature of future developments but, in the short term, this is likely to provide valuable windows of opportunity to make purchases that often form the basis for long-term performance.

GENERAL INFORMATION

Investment objective and policy

The Fund aims to provide capital growth over the medium to long term.

The Fund will invest predominantly in a diversified portfolio of UK equities.

Under normal circumstances the emphasis will be on equity shares in the UK. The Fund may invest in various sectors.

The Fund may also invest in fixed interest and other transferable securities (including non-UK equities), cash, near cash, deposits, money-market instruments and other collective investment schemes.

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile of the fund is contained in the fund’s Key Investor Information Document (KIID).

Group 2	3.8298	3.6689	7.4987	6.9617

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Many funds receive dividends from the companies they invest in. These payments are added to the fund's cash reserve. As this reserve grows, so does the fund's net asset value, which in turn increases the offer price for the fund's units.

At the point of the fund's next dividend payment date, these dividends are paid out to the fund's unitholders and no longer form part of the fund's cash reserve. This usually causes the unit price of the fund to fall.

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments, in compliance with the Financial Conduct Authority's Collective Investments Schemes sourcebook. They have been prepared in accordance with applicable UK accounting standards, Trust Deed and in accordance with FRS 102 and in accordance with the Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Management Association (IMA) in May 2014 (the 2014 SORP) and amended in June 2017. Unless otherwise stated all accounting policies are consistent with those of the prior year.

As stated in the Statement of the Manager's Responsibilities in relation to the Report and Financial Statements of the Trust on page 140, the Manager continues to adopt the going concern basis in the preparation of the financial statements of the Trust.

The accounting policies outlined below have been applied on a consistent basis throughout the year.

b. Recognition of revenue and interest payable

All dividends from companies declared ex-dividend by 30 June 2019, deposit interest and interest payable, are accrued to 30 June 2019 and are included in the Statement of Total Return.

Bond revenue is accounted for on an effective yield basis, calculated with reference to the purchase price.

Underwriting commission is taken to revenue and recognised when the issue takes place, unless the Trust is required to take up all or some of the underwritten shares. In this case the commission is used to reduce the cost of the shares.

c. Treatment of stock and special dividends

The ordinary element of stock dividends is treated as revenue and forms part of the distribution. In the case of an enhanced stock dividend, the value of the enhancement is treated as capital and does not form part of the distribution.

Special dividends are treated as revenue or capital depending on the facts of each particular case.

d. Treatment of expenses

All expenses are charged to revenue, except for Wesleyan Moderate-High Risk/Reward Income Fund where the manager's periodic charge is charged to capital. Expenses relating to the purchase or sale of investments are charged to capital.

e. Distribution policies

Any revenue available for distribution will be paid as either income or accumulated distributions.

The manager's periodic charge in Wesleyan Moderate-High Risk/Reward Income Fund is charged against capital for the purposes of calculating the amount available for distribution.

All of the net revenue available for distribution at the end of the year will be distributed or reinvested in the Trust.

f. Basis of valuation of investments

The listed investments of the Trust have been valued at bid-value at closing on 28 June 2019, being the last valuation point of the year, net of any accrued interest which is included in the balance sheet as a revenue-related item and is in accordance with the recommendations contained in the 2014 SORP.

Any unlisted, delisted, suspended or unapproved securities have been valued at the Manager's best estimate of fair value.

g. Foreign currencies

Transactions in foreign currencies are translated into Sterling at the rates ruling at the dates of the transactions. Assets and liabilities expressed in foreign currencies are translated at the rates ruling at closing on 28 June 2019, being the last valuation point of the year.

h. Taxation

The charge for taxation is based on the results for the year. In general, the tax accounting treatment follows that of the original amount. Deferred tax is provided on all timing differences that have originated but not reversed at the balance sheet date other than those recorded as permanent differences.

Deferred tax is provided at the average rate of tax expected to apply.

Deferred tax assets and liabilities are not discounted to reflect the time value of money.

Note that deferred tax assets are recognised only to the extent they are regarded as recoverable.

i. Income Distributions from Real Estate Investment Trusts (REITs)

Income distributions from Real Estate Investment Trusts (UK REITs) will be split into two parts, a Property Income Distribution (PID) made up of rental revenue and a non-PID element, consisting of non-rental revenue. The PID element is subject to Corporation Tax as schedule A revenue, while the UK dividend will be treated as franked revenue.

5. TAXATION

	30 June 2019	30 June 2018
Wesleyan International Growth Fund	£	£
a) Analysis of charge in the year:		
Overseas tax	68,768	57,347
Total current tax for the year (see note 5b)	68,768	57,347
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is higher than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2018: 20%).		
The differences are explained below:		
	£	£
Net revenue before taxation	178,602	143,267
Corporation tax at 20% (2018: 20%)	35,720	28,653
Effects of:		
Revenue not subject to taxation	(141,632)	(133,273)
Movement in excess management expenses	105,912	104,620
Irrecoverable overseas tax	68,768	57,347
Current tax charge for the year (see note 5a)	68,768	57,347
c) Factors affecting future tax charge:		
At 30 June 2019 there is a potential deferred tax asset of £305,692 (30 June 2018: £199,780) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.		

	£	£
Wesleyan Low Risk/Reward Growth Fund		
a) Analysis of charge in the year:		
Corporation tax	3,165	-
Overseas tax	841	302
Total current tax for the year (see note 5b)	4,006	302
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2018: 20%).		
The differences are explained below:		
	£	£
Net revenue before taxation	233,796	151,897
Corporation tax at 20% (2018: 20%)	46,759	30,379
Effects of:		
Revenue not subject to taxation	(51,734)	(35,386)
Movement in excess management expenses	4,849	5,035
Taxable property income distributions	3,165	-
Irrecoverable overseas tax	841	302
Tax relief on UK index-linked gilts	126	(28)
Current tax charge for the year (see note 5a)	4,006	302
c) Factors affecting future tax charge:		
At 30 June 2019 there is a potential deferred tax asset of £16,525 (30 June 2018: £11,676) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.

Irrecoverable overseas tax on capital special dividends	5,006	-
Swiss tax reclaims written off	292	-
Current tax charge for the year (see note 5a)	12,504	5,137
c) Factors affecting future tax charge:		
At 30 June 2019 there is a potential deferred tax asset of £96,473 (30 June 2018: £54,339) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.		

Wesleyan Moderate Risk/Reward Growth Fund	£	£
a) Analysis of charge in the year:		
Swiss tax reclaims written off	1,185	1,117
Overseas tax	12,332	7,459
Total current tax for the year (see note 5b)	13,517	8,576
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2018: 20%). The differences are explained below:	£	£
Net revenue before taxation	380,199	223,420
Corporation tax at 20% (2018: 20%)	76,040	44,684
Effects of:		
Revenue not subject to taxation	(122,466)	(76,574)
Movement in excess management expenses	46,426	31,890
Swiss tax reclaim written off	1,185	1,117
Irrecoverable overseas tax	12,332	7,459
Current tax charge for the year (see note 5a)	13,517	8,576
c) Factors affecting future tax charge:		
At 30 June 2019 there is a potential deferred tax asset of £98,125 (30 June 2018: £51,699) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.		

5. TAXATION continued

11. CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

There were no material capital commitments or contingent liabilities as at the balance sheet date (30 June 2018 : £nil).

12. RELATED PARTY TRANSACTIONS

Wesleyan Unit Trust Managers Ltd, as Manager, is a related party, and acts as principal in respect of all transactions of units in the Trust.

The aggregate monies received through issue and paid on cancellation are disclosed in the Statement of Change in net assets attributable to unitholders. Any amounts due to, or from Wesleyan Unit Trust Managers Ltd at the end of the accounting year are disclosed in notes 6 (distribution), 8 (debtors) and 9 (other creditors).

Wesleyan Unit Trust Managers Ltd did not enter into securities transactions with the Trust during the year.

Wesleyan International Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £35,619 was due to the Manager at the year end (30 June 2018: £76,245).

Wesleyan Low Risk Reward Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £22,641 was due to the Manager at the year end (30 June 2018: £42,312).

Wesleyan Moderate-High Risk/Reward Income Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £18,116 was due to the Manager at the year end (30 June 2018: £33,386).

Wesleyan Moderate Risk/Reward Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £36,810 was due to the Manager at the year end (30 June 2018: £64,232).

Wesleyan Risk Averse Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £165 was due to the Manager at the year end (30 June 2018: £770).

Wesleyan UK Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £61,110 was due to the Manager at the year end (30 June 2018: £150,464).

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

13. RISK DISCLOSURES ON FINANCIAL INSTRUMENTS

In pursuing its investment objectives the Trust holds a number of financial instruments. The Trust's financial instruments comprise securities and other investments, cash balances, debtors and creditors that arise directly from its operations, for example, amounts receivable for creations and payable on liquidations, and debtors for accrued revenue.

The Trust has little exposure to credit or cash flow risk as all its transactions are settled in cash against delivery and therefore the failure of a third-party broker will not give rise to a loss. There are no material borrowings or unlisted securities and so there is little exposure to liquidity risk.

The main risks it faces arising from its financial instruments are (i) foreign currency risk; (ii) market price risk, being the risk that the value of holdings will fluctuate as a result of changes in market prices caused by factors other than interest rate or currency movement; (iii) interest rate risk and (iv) liquidity risk (v) credit risk.

The Manager's policies for managing these risks are summarised below and have been applied throughout the current and preceding year.

Risk management process

The stock selection and asset allocations of the portfolios are reviewed at periodic Board meetings. Consideration is given to whether the risk associated with the exposure to particular investment categories or stocks is prudent in the context of the investment objective. The Investment Manager has the responsibility for monitoring existing portfolios in accordance with an overall investment category deviation parameter and seeks to ensure that the portfolios as a whole meet an acceptable risk/reward profile.

(i) Foreign Currency risk

Wesleyan International Growth Fund

A substantial proportion of net assets of the Trust are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2019			Net Currency assets 30 June 2018		
	Monetary exposures £	Non-monetary exposures £	Total £	Monetary exposures £	Non-monetary exposures £	Total £
Canadian Dollar	6,503	-	6,503	45,126	-	45,126
Danish Krone	45,886	668,512	714,398	9,853	474,134	483,987
Euro	343,185	6,524,638	6,867,823	314,473	6,574,938	6,889,411
Japanese Yen	47,521	-	47,521	44,558	-	44,558
Sterling	132,447	6,786,710	6,919,157	(115,988)	6,870,038	6,754,050
Swedish Krona	1,263	-	1,263	22,453	-	22,453
Swiss Franc	57,382	1,085,660	1,143,042	66,434	1,001,056	1,067,490
US Dollar	157,146	15,819,916	15,977,062	492,912	13,767,074	14,259,986
Total	791,333	30,885,436	31,676,769	879,821	28,687,240	29,567,061

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £2,475,761 (30 June 2018 : £2,281,301). A 10% decrease would have an equal and opposite effect. These calculations assume all other variables remain constant.

Wesleyan Low Risk/Reward Growth Fund

A proportion of net assets of the Trust are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2019			Net Currency assets 30 June 2018		
	Monetary exposures £	Non-monetary exposures £	Total £	Monetary exposures £	Non-monetary exposures £	Total £
Euro	16,768	195,476	212,244	7,861	49,019	56,880
Sterling	951,026	20,414,200	21,365,226	1,105,243	16,746,969	17,852,212
US Dollar	1,770	-	1,770	1,704	-	1,704
Total	969,564	20,609,676	21,579,240	1,114,808	16,795,988	17,910,796

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £21,401 (30 June 2018 : £5,858). If Sterling to foreign currency exchange rates had decreased by 10% as at the balance sheet date, the net asset value of the Trust would have increased by £21,401 (30 June 2018 : £5,858). These calculations assume all other variables remain constant.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

Wesleyan Moderate-High Risk/Reward Income Fund

A substantial proportion of net assets of the Trust are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2019			Net Currency assets 30 June 2018		
	Monetary exposures	Non-monetary exposures	Total	Monetary exposures	Non-monetary exposures	Total
	£	£	£	£	£	£

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £499,504 (30 June 2018 : £375,450). If Sterling to foreign currency exchange rates had decreased by 10% as at the balance sheet date, the net asset value of the Trust would have increased by £499,504 (30 June 2018 : £375,450). These calculations assume all other variables remain constant.

Wesleyan Risk Averse Fund

No portion of net assets of the Trust are denominated in currencies other than Sterling and therefore no sensitivity analysis has been included or disclosed.

Wesleyan UK Growth Fund

A proportion of net assets of the Trust are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2019			Net Currency assets 30 June 2018		
	Monetary exposures	Non-monetary exposures	Total	Monetary exposures	Non-monetary exposures	Total
	£	£	£	£	£	£
Euro	147,264	-	147,264	115,382	-	115,382
Sterling	1,030,072	64,353,202	65,383,274	1,059,444	70,196,659	71,256,103
US Dollar	142,371	-	142,371	103,460	-	103,460
Total	1,319,707	64,353,202	65,672,909	1,278,286	70,196,659	71,474,945

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £28,963 (30 June 2018 : £21,884). If Sterling to foreign currency exchange rates had decreased by 10% as at the balance sheet date, the net asset value of the Trust would have increased by £28,963 (30 June 2018 : £21,884). These calculations assume all other variables remain constant.

(ii) Market Price Risk

The Trust's investment portfolio is exposed to market price fluctuations which are monitored by the Manager in pursuance of the investment objective and policy set out in the general information page for each fund.

Adherence to investment guidelines and to investment and borrowing powers set out in the Trust Deed, Scheme Particulars and in the rules of the FCA's Collective Investment Schemes Sourcebook mitigates the risk of excessive exposure to any particular type of security or issuer.

Price Risk Sensitivity**Wesleyan International Growth Fund**

A ten per cent increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £3,088,544 (30 June 2018: £2,868,724). A ten per cent decrease would have an equal and opposite effect.

Wesleyan Low Risk/Reward Growth Fund

A ten per cent increase in the value of the Trust's portfolio would have the effect of increasing the net assets by £2,060,968 (30 June 2018: £1,679,599). A ten per cent decrease would have an equal and opposite effect.

Wesleyan Moderate-High Risk/Reward Income Fund

A ten per cent increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £1,410,746 (30 June 2018: £1,130,578). A ten per cent decrease would have an equal and opposite effect.

Wesleyan Moderate Risk/Reward Growth Fund

A ten per cent increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £3,109,463 (30 June 2018: £2,394,997). A ten per cent decrease would have an equal and opposite effect.

Wesleyan Risk Averse Fund

A ten per cent increase in the value of the Trust's portfolio would have the effect of increasing the net assets by £248,772 (30 June 2018: nil). A ten per cent decrease would have an equal and opposite effect.

Wesleyan UK Growth Fund

A ten per cent increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £6,435,320 (30 June 2018: £7,019,666). A ten per cent decrease would have an equal and opposite effect.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

(iii) Interest rate risk

The interest rate risk profile of the Trust's financial assets and liabilities at 30 June 2019 compared to the previous year end was:

Wesleyan International Growth Fund

The only significant interest-bearing assets are cash balances of £805,470 (30 June 2018: £965,851), which earn interest by reference to LIBOR or its overseas equivalent.

There are no significant interest-paying liabilities (30 June 2018: £nil).

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

Wesleyan Low Risk/Reward Growth Fund

Wesleyan UK Growth Fund

The only significant interest-bearing assets are cash balances of £803,139 (30 June 2018: £1,114,822), which earn interest by reference to LIBOR or its overseas equivalent.

There are no significant interest-paying liabilities (30 June 2018: £nil).

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

(iv) Inflation risk

Inflation erodes the real (buying power) value of future income payments or capital repayment. Consequently, where these future payments are fixed in nominal terms, as is the case with bonds, a rise in inflation will reduce the present value of the financial instrument in question. The further in the future that the payments are to be made, the greater the negative impact will be of an increase in inflation, since the erosion of the value will accumulate over a greater number of years. Hence, fixed rate bonds with many years to maturity will be most at risk from a rise in inflation. The returns from cash deposits can vary and may even benefit from an increase in anticipated inflation if it is associated with an increase in current interest rates. As a result, cash holdings may or may not suffer from an increase in anticipated inflation.

(v) Liquidity risk

All of the Trust's financial assets are considered to be readily realisable in accordance with the market practices of the exchange on which they are traded.

(vi) Credit risk

The Trust's transactions in securities expose it to the risk that the counterparty will not deliver the investment for a purchase or the cash for a sale. To minimise this, the Fund only deals with an approved list of brokers maintained by the Manager.

In the case of share, commissions and taxes are paid by the Fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the average dealing spread was 0.17% (30 June 2018: 0.25%).

Commissions and taxes as % of average Net Assets

Commissions	0.04%
Taxes	0.08%
Expense	0.00%

In the case of share, commissions and taxes are paid by the Fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the average dealing spread was 0.17% (30 June 2018: 0.22%).

15. Fair Value of Investments

The fair value of investments has been determined using the following hierarchy :

- Category 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Category 2 Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Category 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

AUTHORISED FUND MANAGER'S RESPONSIBILITIES STATEMENT

The Collective Investment Schemes source book ("COLL"), as issued (and amended) by the Financial Conduct Authority (FCA) requires the Manager to prepare the annual report and financial statements for each financial year which give a true and fair view of the financial affairs of the Scheme and of its net revenue and net losses for the year.

In preparing the financial statements the Manager is required to:

- a) Select suitable accounting policies and then apply them consistently.
- b) Comply with requirements of the Statement of Recommended Practice for Authorised Funds issued by the Investment Management Association in May 2014. Previously the requirements for the Statement of Recommended Practice (SORP) issued by the Investment Management Association had been applied as amended in June 2017.
- c) Follow generally accepted accounting principles and applicable net asset value accounting standards.
- d) Keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.
- e) Make judgements and estimates that are reasonable and prudent.
- f) Prepare the financial statements on the going concern basis unless it is inappropriate to presume that this Scheme will continue in operation.

The Manager is responsible for the management of the Scheme in accordance with its Trust Deed, Prospectus and COLL. The Manager is also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Manager confirms that suitable accounting policies have been used and applied consistently and reasonable and prudent judgement and estimates have been made in the preparation of the financial statements for the year ended 30 June 2019. The Manager also confirms that applicable accounting standards have been followed.

UCITS V Remuneration (Unaudited)

Here at Wesleyan Group of companies, we are required to report annually on our Remuneration Governance Process as well as detailing our Remuneration Policies and Practices set as part of the Remuneration Code. This has been implemented by FCA under the Capital Requirements Directive and the Financial Service Act 2010.

The Remuneration Committee here at Wesleyan Group of companies has established a remuneration policy ensuring the UCITS Directive requirements are met for UCITS Material Risk Takers (UCITS MRTs). UCITS MRTs here at WUTM comprise of individuals in roles that significantly affect risks of WUTM or any UCITS fund that we manage. These roles have been identified in accordance with requirements set out by the UCITS Directive as well as guidance issued by the European Securities and Market Authority.

Meeting on a regular basis, our Remuneration Committee establish the Group's remuneration principles and oversee our governance. Together with the WUTM Board, WUTM remuneration strategy is also reviewed at least on an annual basis. Our Committee is comprised of three non-Executive Directors. Our Committee is also responsible for remuneration on our senior level employees with a specific review on identified Code Staff such as heads of Control Functions.

Remuneration total expenditure is determined based on a share in profit ratio. It measures fixed pay such as salary and benefits as well as variable pay such as performance against the pre-bonus profit of the Group. It is also based on a total compensation ratio that measures total remuneration expenses against net income. By doing this our employee interests are aligned with our performance. When determining our remuneration expenditure each year, the strength and sustainability of the Group is factored in alongside reports on risk, legal and compliance matters from heads of the Control Functions in question.

The remuneration data below reflects amounts paid for the year ended 30 June 2019 for WUTM.

The total remuneration paid by WUTM to its staff and those staff in its parent undertaking that undertake duties relating to WUTM was £598,319 and all relates to fixed remuneration.

The following relates to UCITS MRTs of WUTM who were employed by and provided services to other entities of Wesleyan Group of Companies for the year ended 30 June 2019. Portions of their remuneration is included in the aggregated figures below, based on apportionment of their roles attributed to WUTM or the UCITS fund that it manages. The aggregated total remuneration paid to the 40 UCITS MRTs of WUTM was £598,319, of which £437,214 was paid to senior management, £96,174 to MRTs deemed to be risk takers of WUTM or the UCITS fund that it manages and £64,931 to other UCITS MRTs.

More information on our Remuneration Policies and Practices is available at <https://www.wesleyan.co.uk/ucits>

RESPONSIBILITIES AND REPORT OF THE TRUSTEE

STATEMENT OF THE TRUSTEE'S RESPONSIBILITIES IN RESPECT OF THE SCHEME

The Depositary in its capacity as Trustee of Wesleyan Authorised Unit Trust must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- a) the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- b) the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- c) the value of units of the Trust are calculated in accordance with the Regulations;
- d) any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- e) the Trust's income is applied in accordance with the Regulations; and
- f) the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Depositary also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents of the Trust in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Trust, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Trust, acting through the AFM:

- i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF WESLEYAN AUTHORISED UNIT TRUST

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Wesleyan Authorised Unit Trust ("the Trust") comprising each of its funds, for the year ended 30 June 2019 which comprise the Statement of Total Return and the Statement of Change in Net Assets Attributable to Unit Holders together with the Balance Sheet for each of the Trust's funds, the accounting policies and risk profile of the Trust, the related notes for each fund and the Distribution Tables, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) including FRS 102 'The Financial Reporting Standard applicable to the UK and Republic of Ireland'.

In our opinion, the financial statements:

- ▶ give a true and fair view of the financial position of the Trust comprising each of its funds as at 30 June 2019 and of the net revenue and the net capital gains/losses on the scheme property of the Trust comprising each of its funds for the year then ended; and
- ▶ have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

In relation to the Trust, we have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- ▶ the Manager's use of the going concern basis of accounting in the preparation of the financial
- ▶ statements is not appropriate; or
- ▶ the Manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Trust's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF WESLEYAN AUTHORISED UNIT TRUST

OTHER INFORMATION

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The Manager is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE RULES OF THE COLLECTIVE INVESTMENT SCHEMES SOURCEBOOK OF THE FINANCIAL CONDUCT AUTHORITY

In our opinion:

- ▶ the financial statements have been properly prepared in accordance with the Statement of Recommended Practice relating to Authorised Funds, the rules of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority and the Trust Deed;
- ▶ the information given in the Manager's report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- ▶ there is nothing to indicate that proper accounting records have not been kept or that the financial statements are not in agreement with those records.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matter in relation to which the Collective Investment Schemes Sourcebook of the Financial Conduct Authority rules requires us to report to you if, in our opinion:

- ▶ we have not received all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit

RESPONSIBILITIES OF THE MANAGER

As explained more fully in the Manager's responsibilities statement set out on page 140, the Manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the

Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

USE OF OUR REPORT

This report is made solely to the Trust's unitholders, as a body, pursuant to Paragraph 4.5.12 of the rules of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Ernst & Young LLP, Statutory Auditor, Edinburgh

30 October 2019

Notes:

1. The maintenance and integrity of the Wesleyan Authorised Unit Trust website is the responsibility of the manager; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the web site.
2. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.
