You are about to purchase a product that is not simple and may be difficult to understand.

What is this Product?

Product Type

This is a Trustee Investment Plan with payments invested in the Wesleyan With Profits Growth Pension Fund Series A

Objectives

The Wesleyan With Profits Growth Pension Fund Series A aims to provide capital growth over a medium to long term period. It invests in a mixture of high and low risk assets, including UK and international shares, fixed interest stocks, property, cash and other related investments. The fund aims to avoid sharp rises and falls by 'smoothing' the return on investments.

Intended Investor

This product is suitable for retail investors who are looking for higher returns than cash or fixed-interest based investments and accept investing in higher risk assets to achieve this but in a way that limits exposure to frequent market rises and falls. It is designed to form part of a portfolio of investments.

What are the risks and what could I get in return?

The Summary Risk Indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Lower risk

Higher risk

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may have to pay significant extra costs to cash in early.

We have classified the product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from the future performance at a medium-low level, and poor market conditions are unlikely to impact the ability of Wesleyan Assurance Society to pay you.

This product does not include any protection from future market performance so you could lose some or all your investment. If we are unable to pay you what is owed you could lose your entire investment.

However you may benefit from consumer protection scheme (See Section "What happens if Wesleyan Assurance Society is unable to pay out?"). The indicator Shown does not consider this protection.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What are the risks and what could I get in return? (continued)

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £1,000 per year.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

The figures shown include all the costs of the product itself, where applicable, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Investment £1,000 per year				
		1 year	3 years	5 years
Survival scenarios				
Stress scenario	What you might get back after costs	£578.00	£2131.00	£3323.00
	Average return each year	-42.24%	-16.14%	-13.32%
Unfavourable scenario	What you might get back after costs	£920.00	£2761.00	£4659.00
	Average return each year	-8.00%	-4.09%	-2.35%
Moderate scenario	What you might get back after costs	£1036.00	£3235.00	£5616.00
	Average return each year	3.59%	3.82%	3.90%
Favourable scenario	What you might get back after costs	£1156.00	£3781.00	£6803.00
	Average return each year	15.63%	12.02%	10.45%

What happens if Wesleyan Assurance Society is unable to pay out?

If we cannot meet our financial obligations to you, you may be entitled to compensation from the Financial Services Compensation Scheme (FSCS) under the Financial Services and Markets Act 2000. For more information, visit www.fscs.org.uk

What are the costs?

The Reduction in Yield (RIY) shows the impact of the total costs you will pay on the investment return you might get. The total costs take into account the one-off, on-going and incidental costs.

The amounts shown here are the cumulative costs of the product itself for three different holding periods. They include any early exit penalties. The figures assume you invest £1,000 per year. The figures are estimates, based on prices which are net of charges, and may change in the future.

The person selling or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Investment £1,000 per year			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at 5 years
Total costs	£8.00	£47.00	£119.00
Impact on return (RIY) per year	0.74%	0.74%	0.74%

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and, what the different cost categories mean.

This table shows the impact on return per year

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.05%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.69%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	0.00%	N/A
	Carried interests	0.00%	N/A

How long should I hold it and can I take money out early?

Recommended Holding Period: 5 years plus

The product is designed as a medium to long term investment, so you should aim to keep it for five years or more. There is no fixed maturity date.

Partial surrender may be requested at any time. Should a partial surrender be submitted, the execution of which could cause the value of the product to fall below the minimum investment threshold, this will be treated as a request for total surrender of the product.

Total Surrender of the product may be requested at any time through the pension provider. Total Surrender terminates the product.

How can I complain?

If you have a complaint about your plan, please contact your professional adviser in the first instance, or alternatively the pension provider.

You can contact Wesleyan via the online contact form on our website - www.wesleyan.co.uk or by emailing complaints@wesleyan.co.uk, or writing to the complaints team at Wesleyan Assurance Society, Colmore Circus, Birmingham, B4 6AR. However we may direct any complaint to your pension provider in the first instance.

Alternatively, you can submit your complaint via the online dispute resolution at www.ec.europa.eu/consumers/odr who will forward your complaint onto the Financial Ombudsman Service.

Other relevant information

This product provides access to the Wesleyan With Profits Fund. Full details of the Wesleyan With Profits Fund can be found at www.wesleyan.co.uk/fund-prices. There is further information in our leaflet 'How our With Profits Fund Works' which is available from your adviser. A more detailed guide to With Profits, the 'Principles and Practices of Financial Management (PPFM)' is available via your adviser.

From time to time, the risk indicator noted above may fluctuate between classes. We encourage you to periodically check the Key Information Document for your fund as this will be updated following any changes to the risk indicator.

Without prejudice to adhoc reviews, this key information document will be reviewed at least every 12 months.
