we are all about you

WESLEYAN AUTHORISED UNIT TRUST

ANNUAL FUND MANAGER REPORT
& AUDITED FINANCIAL STATEMENTS
30 JUNE 2022

DIRECTORS

JAMES NEEDHAM MBA, FIA
CHIEF EXECUTIVE OFFICER
WESLEYAN UNIT TRUST MANAGERS

On 26 February 2020, James was appointed Chief Executive Officer to the board of Wesleyan Unit Trust Managers.

James has 20 years' actuarial experience; he joined Wesleyan in 2010 and became Chief Actuary in 2018. He is responsible for Wesleyan's actuarial and financial reporting activity and oversees the Society's product development and performance, identifying ways to improve customer outcomes. He is a financial reporting expert and has presented at a number of actuarial conferences.

MARTIN LAWRENCE BSc, ASIP
DIRECTOR
WESLEYAN UNIT TRUST MANAGERS

On 21 April 2016, Martin was appointed to the Board of Wesleyan Unit Trust Managers as a Director.

Martin joined Wesleyan in 1995 as an Investment Analyst, after graduating from the University of Exeter with a degree in Mathematics, and he subsequently qualified as an Associate of the Chartered Financial Analyst (CFA) Society of the UK. He became a Fund Manager in 2001.

For 20 years, he managed several Wesleyan funds, including its multi-asset With Profits Fund. As Director of Investments at Wesleyan, Martin is responsible for overseeing the management of Wesleyan's funds and its award-winning, in-house Investments team.

NON-EXECUTIVE DIRECTORS

IAN MCCAIG
CHAIRMAN
WESLEYAN UNIT TRUST MANAGERS

On 11 December 2020, Ian was appointed as a Chairman to the Board of Wesleyan Unit Trust Managers.

Ian has been a member of Wesleyan Group's Board of Directors since 30 September 2019 and was appointed to the Society's Risk Committee. Ian has worked across a number of sectors, most recently as CEO of First Utility Ltd. He led the company through several years of successful transformation and significant growth before its acquisition by Shell at the end of 2017. Prior to that Ian was CEO of lastminute.com. Ian also serves on the Boards of M-Kopa Ltd, Seedrs Ltd, English Heritage and Festicket, of which he is Chair.

ANDREW NEDEN MA, FCA
NON-EXECUTIVE DIRECTOR
WESLEYAN UNIT TRUST MANAGERS

On 11 December 2019, Andrew was appointed as a Non-Executive Director to the Board of Wesleyan Unit Trust Managers.

Andrew has been a member of Wesleyan Group's Board of Directors since November 2014. Andrew worked for 30 years at KPMG, the global accountancy firm, including 18 years as a partner. His roles included Head of Financial Sector Transaction Services in the UK and Global Chief Operating Officer for Financial Services. Andrew also chairs Aetna Insurance Company Limited, is Vice-Chair at the Nottingham Building Society, and is a Non-Executive Director at ABC International Bank PLC.

FUND MANAGERS

JAMES HUBBARD, BA, CFA
WESLEYAN INTERNATIONAL GROWTH FUND
WESLEYAN MODERATE-HIGH RISK/REWARD INCOME FUND

James Hubbard joined Wesleyan as an Investment Analyst in January 2011. After graduating with a BA in Economics and Business from the University of Manchester he initially worked for a Corporate Bank in London. James is a CFA (Chartered Financial Analyst) charterholder and has been a Fund Manager since April 2016.

PAUL BURTON, BSc, FIA
WESLEYAN LOW RISK/REWARD GROWTH FUND
WESLEYAN RISK AVERSE FUND

Paul Burton has been the Fund Manager of the Low Risk Life and Pension funds since launch in January 2012. He has also managed the assets of the Wesleyan Staff Pension Scheme since 1998, and the Society's Non Profit Fund since 2012. He joined the Society in 1990, qualifying as an Actuary in 1998, working as an Investment Analyst in the preceding five years.

MARC O'SULLIVAN, BSc, CFA
WESLEYAN MODERATE RISK/REWARD GROWTH FUND

Marc O'Sullivan has been a Fund Manager since 2012, managing investments across a number of asset classes. Marc joined the Society as an Investment Analyst in 2003, having graduated from the University of Birmingham with a degree in Economics. Marc has been a CFA (Chartered Financial Analyst) charterholder since 2008.

CAROLINE VINCENT, BA, ASIP
WESLEYAN UK GROWTH FUND

Caroline joined Wesleyan as a Fund Manager in 2021, with previous industry experience gained from several senior fund management roles at other investment houses. She holds a degree in Economics from Thames Valley University and is an Associate of the Chartered Financial Analyst (CFA) Society of the UK. Caroline specialises in equities – with experience spanning both emerging and developed markets – and she currently manages the UK Growth Fund and Life Managed Fund.

CHIEF EXECUTIVE OFFICER'S STATEMENT

FULL YEAR JUNE 2022

If the last 12 months has taught me anything, it's that it has very much been a game of two halves in terms of the global economy and investment markets. In the June 2021 annual report, I stated that we were starting to see equity markets rally from the after-effects of the worldwide pandemic. It was a positive story for global stock markets, with the standout performer being the US, where indices skyrocketed.

As we welcomed in the New Year, equity and bond markets got off to a mixed start as highly-valued US equities, such as those in the technology sector (bolstered by the shift in home working during lockdown) started to decline.

The UK stock market, on the other hand, outperformed thanks to energy, healthcare and financial businesses doing well in the first three months of 2022. While energy companies' profits soared, the downside was additional pressure on household budgets as rising energy bills contributed to the growing cost-of-living crisis. Russia's invasion of Ukraine in mid-February set the ball rolling, as it not only threatened world peace but sent shock waves through global financial markets. The international sanctions imposed on Russia caused a spike in commodity prices, largely due to a widespread dependence on Russian oil and gas. European markets were hit particularly hard because of this resulting in a sharp drop in values, causing the hike in energy bills we are seeing today. And, let's not forget the inflated prices at petrol pumps seen right across the globe.

I, like many of you, no doubt, found it hard to believe that in modern times we would be witnessing such a conflict as that seen in Ukraine. But it has so many far-reaching implications. Although the invasion is not solely responsible for global food insecurity, it has been a significant contributing factor. Ukraine is home to the largest arable land area on the continent and is a major producer and exporter of crops such as barley and wheat. As exports from Ukraine continue to be hampered by the war, this affects other areas as the cost of feeding livestock soars, and food production and transportation costs increase for businesses due to higher energy bills. The impact of this is then reflected in the price of goods on our supermarket shelves.

Inflation at an all-time high

Inflation climbed to a 40-year high in June 2022, and it's expected to rise even further by the end of the year. To try to curb this, the Bank of England (BoE) is expected to continue to increase the base rate for the short term. This trend is not exclusive to the UK, as central banks continue to raise interest rates around the world.

The rise in the BoE base rate doesn't necessarily mean that savers will benefit either; the rate applied to standard savings accounts simply won't manage to keep up with the pace of inflation, which devalues money over time.

Taking a focused, long-term approach to investing

The world is going through a period of uncertainty on many fronts as we continue to see exceptional volatility in equity and bond markets. This is the time, as an investor, to hold firm and keep a long-term investing view.

As the uncertainty continues to affect the performance of Wesleyan Unit Trust Managers' funds, and they are not where we would want them to be at this moment in time, our lower-risk and moderate-risk funds are still outperforming against benchmark. This is where the skill and expertise of our Fund Managers really comes into its own; they use market volatility to their advantage – when markets are down, they tend to be buying out of favour assets for the long-term benefit of our funds. You can find out how they have done this in each of the fund reviews included in this document.

The aim is for our funds to outperform the market over time. Prospective clients should therefore only invest with us if they can do so for a minimum of five years, but typically a much longer time will give investments a better chance to grow.

Award-winning, responsible investors

We continue to remain committed to investing in a sustainable manner, and our long-term investment strategy has been recognised by many industry awards over the years. Our Fund Managers are part of an award-winning in-house Investments Team that earlier this year was awarded 'Responsible Investor of the Year' at the Insurance Asset Risk Awards 2022.

“ This is the time, as an investor, to hold firm and keep a long-term investing view.

James Needham
Chief Executive Officer

Our dedicated Socially Responsible Investment Team continues to work closely with our Fund Managers and Analysts to assess our funds and holdings through a sustainability lens. By using Environmental, Social and Governance (ESG) factors in their analysis, they can challenge or support fund management decisions as appropriate, ensuring that we invest in sustainable businesses which, by extension, can be expected to be more profitable over the long term. You can read more about Wesleyan’s approach to sustainable investing here: <https://www.wesleyan.co.uk/savings-and-investments/sustainable-investing>.

Our funds and products

WUTM offers six funds, each with its own unique risk rating and objectives, to meet our customers’ investment needs. These funds are: International Growth Fund (page 9), Low Risk/Reward Growth Fund (page 22), Moderate–High Risk/Reward Income Fund (page 43), Moderate Risk/Reward Growth Fund (page 64), Risk Averse Fund (page 86), and UK Growth Fund (page 96).

There are three WUTM products through which you can invest: a Unit Trust Investment Account, a Unit Trust Individual Savings Account (ISA), and a Unit Trust Junior ISA. You can stay up-to-date on your investment valuations in real time by using the WUTM online Investor Portal. If you haven’t already done so, you can register and log in by visiting www.wesleyan.co.uk/wutm-online. *Remember, there is no initial charge for customers who decide to take out our products online.*

There’s no doubt that we’re all living in extraordinary times, and huge global and geopolitical events such as the war in Ukraine continue to cause volatility in investment markets. However, history has shown that, even after periods of significant falls, markets recover and rise again over time. Remember that investing presents an opportunity to make your money work harder for you, and the longer it’s invested, the stronger the likelihood of getting the best possible returns.

We will continue to be responsible guardians of your money and, on behalf of Wesleyan Unit Trust Managers, thank you for continuing to invest with us.

AUTHORISED FUND MANAGER REPORT

INTRODUCTION

This is the annual report of the Wesleyan Authorised Unit Trust ('Trust') for the year ended 30 June 2022.

The Trust is managed by Wesleyan Unit Trust Managers Limited ('Manager').

The Trust is an authorised unit trust in an umbrella form and was authorised by the Financial Conduct Authority (FCA) effective 4 September 2015. The Trust is classified under the Collective Investment Scheme Sourcebook ('COLL') as a collective investment scheme authorised under the UCITS Directive.

The Trust was established pursuant to a Trust Deed dated 4 September 2015 (as amended from time to time) made between the Manager and HSBC Bank Plc ('Trustee'). The Trust has an unlimited duration.

Details of the managers and advisors of the Trust are disclosed on page 147.

STRUCTURE OF THE TRUST

The Trust is structured as an umbrella unit trust, in that different funds may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed.

The assets of each fund will be treated as separate from those of every other fund and will be invested in accordance with the investment objective and investment policy applicable to that fund.

Each fund has a specific portfolio to which that fund's assets and liabilities are attributable. So far as the Unitholders are concerned, each fund is treated as a separate entity. Unitholders are not liable for the debts of the Trust or for any other fund.

Subject to the above, each fund will be charged with the liabilities, expenses, costs and charges of the Trust attributable to that fund, and within each fund charges will be allocated between classes in accordance with the terms of issue of units of those classes. Any assets, liabilities, expenses, costs or charges not attributable to a particular fund may be allocated by the Manager in a manner which it believes is fair to the unit holders generally. This will normally be pro rata to the Net Asset Value of the relevant funds.

The base currency of each fund is pounds Sterling.

As at 30 June 2022, the Trust comprised of the following funds.

- ▶ Wesleyan International Growth Fund
- ▶ Wesleyan Low Risk/Reward Growth Fund
- ▶ Wesleyan Moderate-High Risk/Reward Income Fund
- ▶ Wesleyan Moderate Risk/Reward Growth Fund
- ▶ Wesleyan Risk Averse Fund
- ▶ Wesleyan UK Growth Fund

All of the above funds are managed by the Manager. Details of other management and advisors of the funds are disclosed on page 147.

UNITS

The rights represented by units are those of a beneficial interest under the Trust. Several classes of units may be issued in respect of each fund.

Further classes of units may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed. On the introduction of any new class, a revised prospectus will be prepared, setting out the details of each class.

Units in the Trust are not currently listed on any investment exchange.

Holders of income units are entitled to be paid the distributable income attributed to such units on any relevant interim and/or annual income allocation dates. The Manager, at its discretion, may also permit unit holders to elect to reinvest any such distributable income instead of receiving payment. In this event, the income will be used to purchase additional units in the same fund.

Holders of Accumulation units are not entitled to be paid the income attributed to such units, but that income is automatically transferred to (and retained as part of) the capital assets of the relevant fund on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation unit.

UNITS IN ISSUE

As at 30 June 2022, Accumulation (“Acc”) and Income (“Inc”) units are available in the following funds and in the following denominations and classes:

Fund class	Unit type	Base currency	Launch date	ISIN ¹
Wesleyan International Growth Fund				
Class A	Acc	GBP	03/06/16	GB00BYNYHT49
Class B	Acc	GBP	03/06/16	GB00BYNYHV60
Class X	Acc	GBP	03/06/16	GB00BYNYHW77
Wesleyan Low Risk/Reward Growth Fund				
Class B	Acc	GBP	06/06/16	GB00BYVDH936
Class X	Acc	GBP	06/06/16	GB00BYSW0R28
Class B	Inc	GBP	06/06/16	GB00BZ161P36
Class X	Inc	GBP	06/06/16	GB00BZ161R59
Wesleyan Moderate-High Risk/Reward Income Fund				
Class B	Acc	GBP	06/06/16	GB00BYVDHG07
Class X	Acc	GBP	06/06/16	GB00BYSW0S35
Class B	Inc	GBP	06/06/16	GB00BZ161V95

Wesleyan Moderate Risk/Reward Growth Fund				
Class B	Acc	GBP	06/06/16	GB00BYVDHJ38
Class X	Acc	GBP	06/06/16	GB00BYSW0W70
Class B	Inc	GBP	06/06/16	GB00BZ161S66
Class X	Inc	GBP	06/06/16	GB00BZ161T73
Wesleyan Risk Averse Fund				
Class A	Acc	GBP	03/06/16	GB00BYNYHM79
Class B	Acc	GBP	03/06/16	GB00BYNYHN86
Class X	Acc	GBP	03/06/16	GB00BYNYHP01
Wesleyan UK Growth Fund				
Class A	Acc	GBP	03/06/16	GB00BYNYHQ18
Class B	Acc	GBP	03/06/16	GB00BYNYHR25
Class X	Acc	GBP	03/06/16	GB00BYNYHS32

¹ International Securities Identification Number (ISIN) codes securities including stocks and bonds with unique identifiable numbers. They are in a consistent format so they can be tracked across markets worldwide and are often used by companies when looking to raise capital whether that be debt or equity.

None of the above funds hold units in other funds of the Trust.

AUTHORISED FUND MANAGER REPORT continued

UNIT HOLDERS – TAXATION

The information below is a general guide based on current United Kingdom law and HM Revenue & Customs practice which are subject to change. It summarises the tax position of the funds and of direct personal investors who are United Kingdom residents and hold units as investments. This does not detail the tax treatment for corporate or trustee unit holders.

INCOME

The funds may pay dividend distributions (which will be automatically retained in the relevant fund in the case of accumulation units). There is currently a tax-free dividend allowance. Dividends received above this allowance from investments not held within an Individual Savings Account are taxed at a rate that depends on the investor's income tax band.

INTEREST

Where a fund pays an interest distribution (which will be automatically retained in the fund in the case of accumulation units) this is gross of the basic rate of tax from 6 April 2016 for some people (depending on their tax bands).

There is currently a tax free Personal Savings Allowance (except for additional rate tax payers). Interest distributions received above this allowance from investments not held within an Individual Savings Account or Junior Individual Savings Account are taxed at a rate that depends on the investor's income tax band.

INCOME EQUALISATION

The first income allocation received by an investor after buying units may include an amount of income equalisation, which will be shown on the issued tax voucher. This is effectively a repayment of the income equalisation paid by the investor as part of the purchase price. It is a return of capital, and is not taxable, rather it should be deducted from the acquisition cost of the units for capital gains tax purposes.

CAPITAL GAINS

Unit holders may be liable to capital gains tax on gains arising from the redemption, transfer or other disposal of units. The rate of tax, and available reliefs, will be as applicable from time to time. An exchange of units between classes within a fund is generally not treated as a disposal for this purpose.

Units in each of the funds may be held within Individual Savings Accounts and would be exempt from personal liability to income or capital gains tax. Unit holders who have invested in the funds through an Individual Savings Account or Junior Individual Savings Account should refer to the Key Features Document for further details of how it operates.

REPORTING DATES

The annual and interim accounting date of the Trust and the funds within are as below.

Annual accounting date: 30 June

Interim accounting date: 31 December

The following sections sets out for each of the funds within the Trust.

- ▶ Fund manager report
- ▶ Number of units in circulation and the net asset values per unit
- ▶ Annual financial statements

This annual report of the Trust and the funds within are available on our website (www.wesleyan.co.uk/about/reports-and-accounts). If you have any questions about the report, or if you would like to talk to us about your investments, you can call us on **0330 123 3813**. Lines are open Monday to Friday from 9.00am to 5.00pm.

James Needham
Chief Executive Officer

Wesleyan Unit Trust Managers Limited

WESLEYAN INTERNATIONAL GROWTH FUND

Fund review

This is the full-year report for the Wesleyan International Growth Fund covering the year to 30 June 2022. The fund delivered a return after charges of -13.8%* over the period, behind the -3.3%** return delivered by the fund's benchmark over the same period.

The last year has been especially challenging for the fund's investment strategy, as reflected in the disappointing underperformance against the backdrop of a falling market. This was driven by stock selection, and its higher-than-benchmark (overweight) exposure to Europe and lower-than-benchmark (underweight) exposure to the US. The fund's positioning towards the industrial and consumer discretionary sectors, as well as having an underweight exposure to the energy sector – the best-performing sector in the year – also hurt performance.

Whilst China is a notable exception, since the last report – at the end of 2021 – the focal point of global markets has largely shifted away from the pandemic-related concerns created by the Omicron variant to new types of crises emerging around the world. The geopolitical turmoil from the conflict in Ukraine, and persistent inflation have formed a material headwind to economic growth. Inflation rates have exceeded 9% in both the UK and US, representing new 40-year highs, especially in terms of significant increases in the prices of food and energy, which are putting strains on household incomes.

Global equity markets fell 10.5% in the six months to 30 June 2022, led by a 17.2% decline in the European equity market

and an 11.8% decline in the US. The response of central banks to the inflation challenges has meant interest rate expectations have increased which has, in turn, driven a reduction in valuations of higher-quality and higher-growth companies (such as Meta – Facebook's parent company – and LVMH, the luxury goods business). This is evident in the 22.3% decline in the global technology sector in the first half of 2022, which is more than double the decline of global equities.

The market movements described above have represented a significant detractor to fund performance over this period. PayPal continues to be the fund's biggest detractor. Other detractors included: the aforementioned Meta and LVMH, as well as Sabre (travel technology) and some of the fund's exposure to the Asia-Pacific region via investment trusts. The biggest contributors to fund performance were Novo Nordisk (pharmaceuticals), Microsoft, ADP (payments) and Johnson & Johnson (healthcare).

In addition to the trades highlighted in the half-year report, we have made a few changes to the portfolio since the start of 2022. The fund has added to existing holdings in Adidas, Autodesk (software) and Just Eat Takeaway as well and made several new investments to expand the portfolio of directly-held emerging market assets. The fund sold out of its remaining position in K+S (agricultural chemicals).

The full list of portfolio holdings can be found later in this report.

Fund outlook

The difficulties facing central banks in moderating inflation without causing negative economic growth, which we have discussed in recent reports, are looking increasingly challenging. Regions such as Europe appear at the highest risk of entering 'stagflation' – a period of slowing growth and high inflation – given current inflation levels (particularly for energy costs), restricted policy options for the European Central Bank, and a closer proximity to the crisis in Ukraine.

The dramatic change in market conditions over the last two to three years illustrates how hard it is to forecast the macroeconomic and geopolitical outlook. As a result, our strategy has, and continues to be, guided by long-term views based on truly understanding individual companies. It is not founded on narrow predictions of short-term outcomes based on current macroeconomic events, and not attempting to chase the latest investment themes or time the peaks and troughs of market sentiment.

We believe the valuations for certain companies and sectors are already pricing in a significant and sustained downturn in earnings, although this is not being seen by many companies' management teams at this current juncture. We believe holdings in the fund have the potential to outperform over the long term despite these difficult times for markets.

*Fund shown is the X-Class Accumulation series. Performance of all unit series are available on pages 16-17.

**The composite benchmark is composed as follows: 95% FTSE All-World - Total Return Index, and 5% SONIA interest rate benchmark. The benchmark is rebalanced annually on 1 January, and makes no allowances for taxes, fees and charges.

WESLEYAN INTERNATIONAL GROWTH FUND continued

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

The composite benchmark is composed as follows: 95% FTSE All-World - Total Return Index, and 5% SONIA interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest predominantly in a diversified portfolio of equities. The equities in which the Fund invests may be issued by companies anywhere in the world.

The Fund may invest in various sectors. The Fund may also invest in fixed interest and other transferable securities, cash, near cash, deposits, money-market instruments and other collective investment schemes.

The Fund may use derivatives for the purpose of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year.

The fund's value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund's future risk and reward category.

A fund in the lowest category does not mean a 'risk free' investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund's Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Group 2	0.4615	0.3910	0.8525	0.6485

Corporate unitholders' information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN LOW RISK/REWARD GROWTH FUND

Fund review

This is the full-year report for the Wesleyan Low Risk/Reward Growth Fund covering the year to 30 June 2022. The fund delivered a return after charges of -7.74%* compared to the benchmark that delivered a return of -8.88%.**

A negative return gives little cause for celebration, even when it is in excess of the benchmark. However, the fund also outperformed its benchmark by more than 2% last year (7.21% compared to a benchmark performance of 5.07%). A return just over 1% ahead of its benchmark this year means a cumulative fund outperformance of more than 3% over the last two years.

When we reported to you at the half-year stage for the period from 1 July 2021 to 31 December 2021, the fund had produced a six-month return of 1.54%, behind its benchmark of 2.36%. The most recent six-month period has seen it more than regain this deficit, in markets that have seen most major asset classes produce negative returns.

Over the last six months of the reporting period, UK equities were the best-performing major asset class, returning -4.6%, well ahead of the -11% of world (excluding UK) equities. When equity markets fall, bonds often move in the opposite direction and provide positive returns, as investors adjust their portfolios by reinvesting proceeds from selling equities into bonds. However, both UK government bonds (gilts) and corporate bonds returned -14% over the same period.

In such an environment, it is difficult to build a portfolio that provides a total return in line with our long-term expectations. Short-term negative returns should be seen in the context of both past returns and expectations for future years.

The fund's positioning – being both overweight UK equities and underweight overseas equities – was a strong contributor to its outperformance against benchmark, as was our shorter-duration holdings in bonds, which outperformed longer-duration bonds over the six-month period to 30 June 2022.

Just as the world was trying to learn to live with COVID-19, markets were hindered by a combination of higher-than-expected inflation and the conflict in Ukraine, which also exacerbated the squeeze on prices due to constrained global supply chains. The proximity of events in Ukraine to western Europe also had the effect of focusing investors' minds on the potential economic effects of a drawn-out conflict. This put pressure on equity valuations. Bond valuations also came under pressure with yields rising (and hence prices falling) as interest rate rises were announced as a means to try to fight inflation.

Portfolio activity has been restrained over the last few months, with more resources directed into overseas equities as well as special opportunities in the UK, as we look to increase equity exposure on market weakness.

The full list of portfolio holdings can be found later in this report.

Fund outlook

Little has changed in our outlook and preferences for asset categories since the start of 2022. We still retain our preference for equities over bonds. This is based on

our assessment of the 'relative value' of these two asset classes.

Globally, we are still in a rising interest rate environment which we expect to persist into 2023. Inflation remains the enemy of bond markets. Interest rates will continue to be used by central banks to attempt to curb inflation, which is a global problem due to constrained supply chains and the economic effects of the conflict in Ukraine.

In the UK, inflation is likely to peak towards the end of 2022 in excess of 10% on the Consumer Prices Index measure, as energy prices rise again in October. Once interest rates reach a level sufficiently high to start to bring inflation down, then we are likely to reach a phase of interest rate reductions being applied, to stimulate the economy. By then, we may well have endured a recession, although hopefully only a shallow one.

As interest rates eventually start to fall, bonds will become a more attractive asset class to invest in, but until that happens we remain cautious on their merits.

We have recently increased our overseas equity exposure, although the fund is still more heavily exposed to the UK. We are likely to continue slowly diversifying our equity portfolio over the remainder of 2022 and into 2023, on a company-by-company basis as opportunities present themselves.

*Fund shown is the X-Class Accumulation series, bid prices at the end of the day. Performance of all unit series are available on pages 35–38.

**The composite benchmark is composed as follows: 22.5% FTSE All-Share - Total Return, 7.5% FTSE Developed ex UK - Total Return, 32.5% FTSE Actuaries UK Conventional Gilts All Stocks - Total Return, 32.5% iBoxx £ Corporates - Total Return Indices and 5% SONIA interest rate benchmark. The benchmark is rebalanced annually on 1 January, and makes no allowances for taxes, fees and charges.

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

From 1 July 2022, the composite benchmark is composed as follows: 15% FTSE All-Share Index, 15% FTSE Developed World ex UK Index, 32.5% FTSE Actuaries UK Conventional Gilts All Stocks Index, 32.5% iBoxx (Sterling) Corporates Index and 5% Sterling Overnight Index Average (SONIA) interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest predominantly in a diversified portfolio of government bonds, corporate bonds, UK and International equities and cash.

Investment will generally be made in sterling denominated assets but the Fund may at the Manager’s discretion invest in non-Sterling denominated assets.

The Fund may also invest in other fixed interest and transferable securities, near cash, deposits, money-market instruments and other collective investment schemes. More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund’s Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Corporate unitholders' information

For corporate unitholders, all of the income relating to the distribution is 100% unfranked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN MODERATE-HIGH RISK/REWARD INCOME FUND

Fund review

This is the full-year report for the Wesleyan Moderate-High Risk/Reward Income Fund covering the year to 30 June 2022. The fund delivered a return after charges of -7.32%,* behind the -2.74%** return delivered by the fund's benchmark over the same period.

The first six months of 2022 saw a multitude of threats to asset markets and the global economy, derailing earlier confidence in a continued recovery. Supply chain disruptions, although easing, continued to affect companies, while the economic slowdown in China and the invasion of Ukraine created a demand and supply shock simultaneously. Central banks abandoned their early claims of 'transitory' inflation in favour of more aggressive monetary tightening than previously anticipated.

Global equity markets declined 10.5% in the first half of 2022, with the US and Europe down double-digits, as growth expectations deteriorated. However, equities were not the only asset class that suffered. The combination of high inflation and increased interest rate expectations saw fixed income values decline simultaneously with equities. This was seen in the UK, where both corporate and government fixed income indices fell 14% in the first half of 2022.

Asset allocation was a positive contributor to fund performance over the year, aided by a lower weighting to bonds as well as the positioning of the fixed income portfolios towards shorter-dated government and corporate debt.

Whilst the higher weighting to equities, especially in the UK, should have aided performance, the significant detraction from stock selection has outweighed

the broader asset allocation benefit.

The fund is skewed towards small and mid-sized businesses at the expense of larger names, such as AstraZeneca and energy companies like Shell, that were top performers in the benchmark.

In the six months to 30 June, we made adjustments to the portfolio, further to those we reported in the first half of the year. These included additions to Autodesk (software), Fevertree (beverages), STV (media) and PayPal (payments), as well as new holdings in Masimo (medical technology) and Next Fifteen Communications (digital marketing). In the fixed income portfolio, the fund has started to lengthen the duration of its government bond holdings.

The full list of portfolio holdings can be found later in this report.

Fund outlook

The crosscurrents of inflation, rising interest rates and the risk of an economic downturn provide challenges to asset allocation and stock selection in the near term. The rate of inflation, as we head through 2023, will be a limiting factor to the policies that will be crafted by governments and central banks, as economic support measures (such as government spending or reducing interest rates) remain difficult to implement where they risk further aggravating already elevated inflation.

Collectively, the negative sentiment behind the increased cost of living, tightening financial conditions, and the squeeze on corporate profit margins suggests a challenging year ahead. However, consumer spending has continued to be resilient so far, as well as the demand for services, and labour markets have remained strong. With the exception of

energy and food markets outside the US, commodity prices have declined in recent months, potentially softening the inflation outlook.

Despite the double-digit declines in the six months to 30 June 2022, we continue to view fixed income valuations as less attractive when compared to equities. Inflation, and the likelihood of further interest rate rises, forms a headwind to fixed income returns, while many companies (equities) are able to increase prices to offset the impacts.

Our portfolios are constructed for the long term. We continue to review company results and engage with management teams. Despite the underperformance of smaller companies within the UK, we remain encouraged by the valuations of companies held within the portfolio. There are signs other market participants are seeing similar value, as the fund has seen a high number of recent takeover bids. These include EMIS (healthcare technology), Euromoney (business services) and Clinigen (pharmaceuticals).

The benchmark for the portfolio will change on 1 July 2022, after the end of the period under review. The change is designed to increase the exposure of the fund to overseas equities. As a result, the fund will add further to its global equity exposure but will likely do so gradually as we continue to see a strong investment case for UK equities. More information is available on page 44.

*Fund shown is the X-Class Accumulation series. Performance of all unit series are available on pages 55–57.

**The composite benchmark is composed as follows: 55% FTSE All-Share – Total Return, 15% FTSE Developed ex UK – Total Return, 5% FTSE Emerging Markets – Total Return, 10% FTSE Actuaries UK Conventional Gilts All Stocks – Total Return, 10% iBoxx £ Corporates – Total Return Indices and 5% SONIA interest rate benchmark. The benchmark is rebalanced annually on 1 January, and makes no allowances for taxes, fees and charges.

continued

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital/income growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

From 1 July 2022, the composite benchmark is composed as follows: 37.5% FTSE All-Share Index, 32.5% FTSE Developed World ex-UK Index, 5% FTSE Emerging Markets Index, 10% FTSE Actuaries UK Conventional Gilts All Stocks Index, 10% (Sterling) Corporates Index and 5% Sterling Overnight Index Average (SONIA) interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest in UK and international equities (largely dividend paying) with the remainder largely being invested in fixed interest securities.

The Fund may also invest in other transferable securities, cash, near cash, deposits, money-market instruments and other collective investment schemes.

More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

The Fund may use derivatives for the purpose of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year.

The fund's value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund's future risk and reward category.

A fund in the lowest category does not mean a 'risk free' investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund's Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Corporate unitholder's information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN MODERATE RISK/REWARD GROWTH FUND

Fund review

This is the full-year report for the Wesleyan Moderate Risk/Reward Growth Fund covering the year to 30 June 2022. The fund delivered a return after charges of -3.93%* over the period, compared to the benchmark that delivered a return of -5.46%.**

Although the fund declined by less than the benchmark, we take little comfort from the relative outperformance. The year to 30 June 2022 was a difficult one for investors across a range of assets, with most major asset classes falling in value – as the spectre of rising inflation and interest rates weighed on valuations. We positioned the fund for this scenario and our higher weighting to defensive UK equities, and its position in short-dated government and corporate bonds, helped limit the decline in our fund compared to the benchmark.

Global inflation rates surged over the reporting period as supply chains were unable to match the rebound in consumer demand, aggravated by stringent lockdowns in countries such as China. Other issues included shortages of labour and materials, as well as rising energy prices, all of which led to steep price increases in the costs of goods and services.

This backdrop was inflamed by Russia's invasion of Ukraine in February. Despite the humanitarian impact being at the forefront of everyone's minds, we also saw a range of commodity prices spike higher as financial markets contemplated the threat of restricted supplies. Taking the UK as a case in point, the headline UK inflation rate rose from 2.5% in June 2021 to a 40-year high of 9.4% just 12 months later. In response, the Bank of England increased interest rates on five occasions – moving to 1.25% in June.

With both interest and inflation rates moving higher it created a challenging environment for consumers, whose

spending power was weakened, but also for businesses that were absorbing higher costs at a time when consumers had less disposable income. As a result, most major asset classes declined in the year to 30 June. Government and corporate bond prices fell as investors sought to reflect the prospect of rising interest rates. Global equities also declined against this backdrop. The UK stock market, however, was one of the better relative performers in the year, not only outperforming overseas' peers but also bond markets.

Our positioning of the fund meant that it benefited from a stream of UK government bond maturities, which enabled us to make some fresh, timely purchases of short-dated bonds during the period, with the firm belief that this approach would benefit from rising interest rates in the short term.

In terms of equities, the fund bought shares in specialty pharmaceutical firm Clinigen in July 2021. The company was subsequently acquired in April 2022 at a near 50% uplift to the fund's purchase price. In a similar vein, takeover approaches for HomeServe (support services) and EMIS Group (healthcare) have also contributed positively to the equity performance within the fund. Activision Blizzard (gaming) remains a takeover target for Microsoft, but we are watching developments closely as this deal has attracted scrutiny from competition regulators.

The full list of portfolio holdings can be found later in this report.

Fund outlook

Although inflation rates are currently continuing to rise, it looks increasingly likely that we will see inflationary pressures peak across key geographies in the coming months. This will provide some much-needed respite for consumers, but central banks are still mindful that prevailing

inflation has significantly departed from 'price stability', usually defined as an inflation rate of 2%. For that reason, it is likely that interest rates will continue to increase until inflation begins to meaningfully decline.

Even though inflation will inevitably start to slow, the consequences of tighter monetary policy will weigh on households and the global economy. The delicate balancing act of raising interest rates, to tackle elevated inflation at a time when consumers are being financially squeezed, raises the risk of recessions – as economic growth is set to decline in numerous countries. It is worth highlighting that financial markets are constantly trying to reflect future events in current market prices, and this is one of the primary reasons why major asset classes declined in value over the reporting period.

As long-term investors, we actively look to capitalise on volatile periods where we think assets' prices become detached from their true value. Periods of market pessimism, where investors often place too much emphasis on short-term economic growth concerns, can present valuable opportunities for long-term investors to make selective purchases. The fund has consciously retained cash balances to deploy into such an environment, aligned to our unwavering belief that buying quality assets at attractive valuations will continue to deliver competitive long-term returns for our unitholders.

*Fund shown is the X-Class Accumulation series, bid prices at the end of the day. Performance of all unit series are available on pages 79–81.

**The composite benchmark is composed as follows: 40% UK FTSE All Share – Total Return, 12.5% FTSE Developed ex UK – Total Return, 2.5% FTSE Emerging Markets – Total Return, 20% FTSE Actuaries UK Conventional Gilts All Stocks – Total Return, 20% iBoxx £ Corporates – Total Return Indices and 5% SONIA interest rate benchmark. The benchmark is rebalanced annually on 1 January, and makes no allowances for taxes, fees and charges.

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

From 1 July 2022, the composite benchmark is composed as follows: 27.5% FTSE All-Share Index, 25% FTSE Developed World ex-UK index, 2.5% FTSE Emerging Markets Index, 20% FTSE Actuaries UK Conventional Gilts All Stocks Index, 20% iBoxx (Sterling) Corporate Index and 5% Sterling Overnight Index Average (SONIA) interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest predominantly in a diversified portfolio of UK and international equities, government bonds, corporate bonds and cash.

Investments will be made across various sectors and may include companies anywhere in the world.

The Fund may also invest in other fixed interest and transferable securities, near cash, deposits and money-market instruments and other collective investment schemes. More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund's value has moved up and down in the past and has remained unchanged from the prior year. The fund's value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund's future risk and reward category.

A fund in the lowest category does not mean a 'risk free' investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund's Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Corporate unitholders' information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN RISK AVERSE FUND

Fund review

This is the full-year report for the Wesleyan Risk Averse Fund covering the year to 30 June 2022. The fund delivered a return after charges of -5.50%* over the period, behind the -4.82% return of the benchmark** but well ahead of that of the IA UK Gilts sector average which returned -13.94% over the same period.

Investors in a risk-averse fund would not normally expect to see negative returns over a 12-month period. However, the fund invests in short-dated gilts that fall in value as interest rates rise, and global interest rates rose sharply during the first six months of 2022. Over the period, yields on 10-year UK government bonds (gilts) saw an increase from 0.75% to 2.25%, which is equivalent to a price fall of approximately 10%.

The main reason behind this performance has been well-publicised, with the Bank of England's Monetary Policy Committee (MPC) adopting a faster pace of interest rate rises than investors originally expected. As the world emerged from the financial effects of COVID-19, investment markets forecast an economic slowdown and gradual 'normalisation' of interest rates through a series of occasional small increases from 0.1% in the UK, which was the rate reached after the MPC made a pandemic-related emergency interest rate cut back in March 2020.

In reality, a number of international events forced central banks to raise interest rates faster than had been expected. One such event was the weakening of global supply chains leading to higher-than-expected inflation. This was exacerbated by Russia's invasion of Ukraine, which, in addition to the

humanitarian crisis, led to a rapid rise in commodity and food prices. In turn, this contributed to UK inflation on the Consumer Price Index (CPI) measure, which hit 9.4% in June – considerably above the MPC's target of 2%. This was most noticeable to consumers in the rapid rise in petrol prices and domestic energy bills.

The effect of the MPC's four 0.25% interest rate increases during the first six months of 2022, alongside higher-than-expected inflation, moved gilt prices down as yields rose. This more than outweighed the normal 'safe haven' status of gilts in times of global conflict.

As if that wasn't bad enough for markets, there was also the political upheaval of a UK Prime Minister in crisis, with Boris Johnson attempting to cling onto his position. After only narrowly surviving a vote of no confidence in June, Prime Minister Johnson eventually bowed to party pressure and announced his resignation in early July. In fact, markets had already factored this change of leadership into valuations and, if anything, took reassurance that the uncertainty was now over. As long as government policy is not radically changed by the new incumbent of Number 10 Downing Street, then financial markets will comfortably adjust to a new leader.

Towards the end of the period we extended the duration of the portfolio marginally by selling a 2023 maturity gilt, before buying more of an existing holding of a 2034 maturity gilt. However, the duration of the portfolio remains below that of its benchmark, which is a situation we are comfortable with as we believe that, for the immediate future, short-

dated gilts will outperform their longer-dated equivalent.

The full list of portfolio holdings can be found later in this report.

Fund outlook

In a rising global interest rate environment, gilt yields are likely to continue to see upward moves. However, the scale of these moves will be dictated by the speed, or at least the market's perception of speed, with which inflation can be brought under control. Monetary policy has little effect on the price of commodities and goods impacted by global events such as the conflict in Ukraine. This means that predicting the peak in interest rates is a very difficult task.

What is clear is that global central banks are braced for a series of interest rate rises over the rest of this calendar year, although they will need to temper their inflation-fighting measures to allow economies to function without entering too deep a recession.

As interest rates rise, bonds become more attractive to new investment, and we anticipate that we will gradually lengthen the maturity profile of the fund's investments once we believe future rises have been factored into prices.

*Fund shown is the X-Class Accumulation series, bid prices at the end of the day. Performance of all unit series are available on pages 90–91.

**The composite benchmark is composed as follows: 85% FTSE Actuaries UK Conventional Gilts up to 5 Years – Total Return, 5% FTSE Actuaries UK Conventional Bonds Gilts over 15 Years – Total Return, 7.5% FTSE Actuaries UK Index Linked Government Bonds Gilts All Stocks – Total Return and 2.5% SONIA interest rate benchmark.

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

The composite benchmark is composed as follows: 85% FTSE Actuaries UK Conventional Gilts up to 5 years, 5% FTSE Actuaries UK Conventional Gilts over 15 years, 7.5% FTSE Actuaries UK Index Linked Government Bonds All Stocks - Total Return Index and 2.5% SONIA interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest predominantly through Sterling denominated (or hedged back to Sterling) government backed securities, with a rating the same or higher than that of the UK, with at least 80% invested in UK government securities (Gilts).

The Fund may also invest in other fixed interest and transferable securities, near cash, deposits, money-market instruments and other collective investment schemes.

More than 35% of the Fund may be invested in government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund’s Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Group 2	0.2084	0.1647	0.3731	0.3462

Corporate unitholders' information

For corporate unitholders, all of the income relating to the distribution is 100% unfranked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

WESLEYAN UK GROWTH FUND

Fund review

This is the full-year report for the Wesleyan UK Growth Fund covering the year to 30 June 2022. The fund delivered a return after charges of -1.72% compared to the benchmark that delivered a return of -1.62%.

The fund's exposure to small and mid-sized businesses, as well as consumer-facing sectors, weighed on performance, as fears around the impact of high inflation and the cost-of-living crisis on future company earnings negatively impacted their valuations. With this in mind, the largest detractors on the fund's performance included publisher Future, retailer Halfords, and the new purchase of food delivery company Just Eat Takeaway, with all three impacted by concerns relating to the potential for reduced consumer spending.

The ramifications of Russia's invasion of Ukraine in February fed through into market volatility. The consequences of the conflict impacted all asset classes – both equities and bonds declined in value. Commodity prices, meanwhile, soared, as a result of restrictions in the supply of oil, gas, and wheat from both Russia and Ukraine. This contributed to a surge in inflation in many economies. The UK equity market has a heavy weighting in energy and basic materials sectors and, as a result, outperformed global markets during this period.

Rising commodity prices also supported the fund's position in companies within these sectors, as they reported strong

earnings, buoyed by surging prices, which added to the fund's returns. The top contributors to performance were the global mining business BHP, and oil majors Shell and BP.

An environment of falling valuations can provide suitable long-term investment opportunities. An example of buying when valuations fall is our new holding of Just Eat Takeaway. Its value fell considerably during the year, but the announcement of their partnership with McDonald's led us to believe its long-term prospects were looking more favourable. Though the timing of the purchase proved to be too early, we still believe that, in the long term, the stock offers good value.

New positions were also initiated in pet service provider Pets at Home and building materials group CRH. The fund exited its position in Babcock (support services) and Severn Trent, to crystallise profits.

As part of our Sustainable Investing Policy, the fund continues to move the portfolio towards a more sustainable position. To achieve this, the fund took profits from mining companies Rio Tinto and BHP during the reporting period after strong share price performance.

The full list of portfolio holdings can be found later in this report.

Fund outlook

Investment markets continue to digest a number of key macroeconomic risks that continue to weigh on sentiment, including the ongoing Russia-Ukraine conflict,

tightening monetary policy as a result of elevated inflation, and unpredictable lockdown restrictions in China. Following a no-confidence vote in Boris Johnson, a new UK Prime Minister is to be appointed; however, it is not expected that this will have a significant bearing on the UK equity market.

In a bid to temper rising inflation, the Bank of England (BoE) raised rates four times, from 0.25% in December to 1.25% by the end of the reporting period. The BoE expects UK inflation to reach 13% before the end of the year, which is significantly higher than its 2% target. Double-digit inflation is never a positive sign and UK interest rates are likely to continue to rise in the coming months, to help rein in inflation. The BoE faces the challenge of not raising rates too fast, which would potentially heighten the risk of a recession, which is a difficult balance to achieve.

From a valuation perspective, the UK stock market continues to look attractive compared to global markets and other asset classes. Geopolitical risks (such as the conflict in Ukraine), and rising inflation, will continue to lead to uncertainty and volatility; however, this will open up more buying opportunities for the fund.

*Fund shown is the X-Class Accumulation series, bid prices at the end of the day. Performance of all unit series are available on pages 104–105.

**The composite benchmark is composed as follows: 95% FTSE All Share – Total Return Index, and 5% SONIA interest rate benchmark. The benchmark is rebalanced annually on 1 January, and makes no allowances for taxes, fees and charges.

GENERAL INFORMATION

Investment objective and policy

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling five-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. The benchmark is a target for the fund.

The composite benchmark is composed as follows: 95% FTSE All Share - Total Return Index, and 5% SONIA interest rate benchmark. The organisation decides which asset classes to invest in based on its investment policy and the specific objectives of each fund.

The Fund will invest predominantly in a diversified portfolio of UK equities. Under normal circumstances the emphasis will be on equity shares in the UK. The Fund may invest in various sectors.

The Fund may also invest in fixed interest and other transferable securities (including non-UK equities), cash, near cash, deposits, money-market instruments and other collective investment schemes.

The Fund may use derivatives for the purposes of efficient portfolio management.

Risk and reward profile

The risk category is based on the rate the fund’s value has moved up and down in the past and has remained unchanged from the prior year.

The fund’s value can be influenced by changes in stock market prices, currencies and interest rates which can be affected by factors such as political and economic events.

This risk category is calculated in line with European Securities Markets Authority (ESMA) rules using historical data.

This is not a guarantee and may not be a reliable indication of the fund’s future risk and reward category.

A fund in the lowest category does not mean a ‘risk free’ investment.

A fuller explanation of the risk and reward profile and how it can move up and down based on the market volatility, is contained in the fund’s Key Investor Information Document (KIID). KIIDs are available at www.wesleyan.co.uk/fund-prices

More information about fund performance, including benchmarks and comparisons, can be found later in this report.

Group 1	6.1705	-	6.1705	5.0296
Group 2	3.7090	2.4615	6.1705	5.0296

Corporate unitholders information

For corporate unitholders, all of the income relating to the distribution is 100% franked.

Equalisation

Group 1 and 2 (see top of the page for dates) unitholders receive the same dividend amount per unit. Group 1 payments entirely comprise of income and therefore Equalisation does not apply to this group.

Group 2 payments take into account two components as they are between two dividend dates. Part of the payment for Group 2 unitholders comes from the income that accumulated from the date of unit purchase. The second part comes from partial returns on units that were bought at a higher price when the cash reserve grew. This is known as capital repayment. It is not liable to Income Tax but must be deducted from the cost of the shares for Capital Gains Tax purposes.

Independent auditors' report	151
Managers and Advisers*	154

*Collectively, comprises of the Authorised Fund Manager Report.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments, in compliance with the Financial Conduct Authority's Collective Investments Schemes sourcebook. They have been prepared in accordance with applicable UK accounting standards, Trust Deed and in accordance with FRS 102 and in accordance with the Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Association (IA) in May 2014 (the 2014 SORP) and amended in June 2017. Unless otherwise stated all accounting policies are consistent with those of the prior year.

As stated in the Statement of the Manager's Responsibilities in relation to the Report and Financial Statements of the Trust on page 143, the Manager continues to adopt the going concern basis in the preparation of the financial statements of the Trust. The Manager has made an assessment of the Funds' ability to continue as a going concern, and is satisfied it has the resources to continue in business for the foreseeable future and is not aware of any material uncertainties that may cast significant doubt on this assessment. This assessment is made as at the date of issue of these financial statements covering a period of 12 months and considers liquidity, declines in global capital markets, known redemption levels, expense projections, key service provider's operational resilience.

The accounting policies outlined below have been applied on a consistent basis throughout the year.

b. Recognition of revenue and interest payable

All dividends from companies declared ex-dividend by 30 June 2022, deposit interest and interest payable, are accrued to 30 June 2022 and are included in the Statement of Total Return.

Bond revenue is accounted for on an effective yield basis, calculated with reference to the purchase price.

Underwriting commission is taken as revenue and recognised when the issue takes place, unless the Trust is required to take up all or some of the underwritten shares. In this case the commission is used to reduce the cost of the shares.

c. Treatment of stock and special dividends

The ordinary element of stock dividends is treated as revenue and forms part of the distribution. In the case of an enhanced stock dividend, the value of the enhancement is treated as capital and does not form part of the distribution.

Special dividends are treated as revenue or capital depending on the facts of each particular case.

d. Treatment of expenses

All expenses are charged to revenue, except for Wesleyan Moderate-High Risk/Reward Income Fund where the manager's periodic charge is charged to capital. Expenses relating to the purchase or sale of investments are charged to capital.

e. Distribution policy – charged to capital for the purpose of the distribution

Any revenue available for distribution will be paid as either income or accumulated distributions.

The manager's periodic charge in Wesleyan Moderate-High Risk/Reward Income Fund is charged against capital for the purposes of calculating the amount available for distribution.

All of the net revenue available for distribution at the end of the year will be distributed or reinvested in the Trust.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

f. Basis of valuation of investments

The listed investments of the Trust have been valued at bid-value at closing on 30 June 2022, net of any accrued interest which is included in the balance sheet as a revenue-related item and is in accordance with the recommendations contained in the 2014 SORP.

Any unlisted, delisted, suspended or unapproved securities have been valued at the Manager's best estimate of fair value.

g. Foreign currencies

Transactions in foreign currencies are translated into sterling at the rates ruling at the dates of the transactions. Assets and liabilities expressed in foreign currencies are translated at the rates ruling at closing on 30 June 2022, being the last valuation point of the year.

h. Taxation

20%

i. Income Distributions from Real Estate Investment Trusts (REITs)

Income distributions from Real Estate Investment Trusts (UK REITs) will be split into two parts, a Property Income Distribution (PID) made up of rental revenue and a non-PID element, consisting of non-rental revenue. The PID element is subject to Corporation Tax as schedule A revenue, while the UK dividend will be treated as franked revenue.

5. TAXATION

	30 June 2022	30 June 2021
Wesleyan International Growth Fund	£	£
a) Analysis of charge in the year:		
Overseas tax	62,723	56,528
Reclaimable tax written off	7,293	6,783
Windfall overseas tax recoveries	-	(1,372)
Total current tax for the year (see note 5b)	70,016	61,939
Total current tax for the year (see note 5c)	70,016	61,939
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is higher than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2021: 20%).		
The differences are explained below:	£	£
Net revenue before taxation	123,875	36,987
Corporation tax at 20% (2021: 20%)	24,775	7,397
Effects of:		
Revenue not subject to taxation	(151,494)	(130,050)
Movement in excess management expenses	126,719	122,653
Irrecoverable overseas tax	62,723	56,528
Reclaimable tax written off	7,293	6,783
Windfall overseas tax recoveries	-	(1,372)
Current tax charge for the year (see note 5a)	70,016	61,939
c) Factors affecting future tax charge:		
At 30 June 2022 there is a potential deferred tax asset of £664,563 (30 June 2021: £537,844) in relation to surplus management expenses of £3,321,388 (30 June 2021: £2,687,940) and non-trading deficits of £1,427 (30 June 2021: £1,282). It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.		
Wesleyan Low Risk/Reward Growth Fund	£	£
a) Analysis of charge in the year:		
Corporation tax	4,854	3,842
Overseas tax	4,035	499
Total current tax for the year (see note 5b)	8,889	4,341
Deferred tax (see note 5c)	-	-
Total current tax for the year (see note 5c)	8,889	4,341
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2021: 20%).		
The differences are explained below:	£	£
Net revenue before taxation	359,232	226,872
Corporation tax at 20% (2021: 20%)	71,846	45,374
Effects of:		
Revenue not subject to taxation	(90,222)	(65,867)
Taxable property income distributions	4,854	3,842
Movement in excess management expenses	27,444	21,726
Irrecoverable overseas tax	4,035	499
Taxable adjustment for UK index-linked gilts	(9,068)	(1,233)
Current tax charge for the year (5a)	8,889	4,341

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

c) Factors affecting future tax charge:

At 30 June 2022 there is a potential deferred tax asset of £ 78,586 (30 June 2021: £ 51,142) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.

	30 June 2022	30 June 2021
	£	£
Wesleyan Moderate-High Risk/Reward Income Fund		
a) Analysis of charge in the year:

Total current tax for the year (see note 5b)	22,803	17,730
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2021: 20%).		
The differences are explained below:	£	£
Net revenue before taxation	619,694	325,602
Corporation tax at 20% (2021: 20%)	123,939	65,120
Effects of:		
Revenue not subject to taxation	(242,927)	(157,979)
Movement in excess management expenses	118,988	16,428
Irrecoverable overseas tax	21,452	92,859
Irrecoverable overseas tax on capital special dividends	-	-
Reclaimable tax written off	1,351	1,302
Current tax charge for the year (5a)	22,803	17,730
c) Factors affecting future tax charge:		
At 30 June 2022 there is a potential deferred tax asset of £378,072 (30 June 2021: £259,084) in relation to surplus management expenses. It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.		

	30 June 2022	30 June 2021
Wesleyan Risk Averse Fund	£	£
a) Analysis of charge in the year:		
Overseas tax	-	-
Total tax for the year	-	-
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2021: 20%).		
The differences are explained below:	£	£
Net revenue before taxation	15,128	15,365
Corporation tax at 20% (2021: 20%)	3,026	3,073
Effects of:		
Deductible interest distributions	(3,026)	(3,073)
Current tax charge for the year (5a)	-	-
c) Factors affecting future tax charge:		
There is no material unprovided Deferred Tax in the current year (2021: nil).		

	£	£
Wesleyan UK Growth Fund	£	£
a) Analysis of charge in the year:		
Overseas tax	969	1,347
Total current tax for the year (see note 5b)	969	1,347
b) Factors affecting current tax charge for the year:		
The tax assessed for the year is lower than the standard rate of corporation tax in the UK for an authorised unit trust (20%) (2021: 20%).		
The differences are explained below:	£	£
Net revenue before taxation	1,563,275	1,043,001
Corporation tax at 20% (2021: 20%)	312,655	208,600
Effects of:		
Revenue not subject to taxation	(457,903)	(356,343)
Movement in excess management expenses	145,248	147,743
Irrecoverable overseas tax	969	1,347
Current tax charge for the year (see note 5a)	969	1,347
c) Factors affecting future tax charge:		
At 30 June 2022 there is a potential deferred tax asset of £984,315 (30 June 2021: £839,067) in relation to surplus management expenses of £4,921,524 (30 June 2021: £4,195,280) and non-trading deficits of £53 (30 June 2021: £53). It is unlikely the fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.

11. CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

There were no material capital commitments or contingent liabilities as at the balance sheet date (30 June 2021 : £nil).

12. RELATED PARTY TRANSACTIONS

Wesleyan Unit Trust Managers Ltd, as Manager, is a related party, and acts as principal in respect of all transactions of units in the Trust.

The aggregate monies received through issue and paid on cancellation are disclosed in the Statement of Change in net assets attributable to unitholders. Any amounts due to, or from Wesleyan Unit Trust Managers Ltd at the end of the accounting year are disclosed in notes 6 (distribution), 8 (debtors) and 9 (other creditors).

Wesleyan Unit Trust Managers Ltd did not enter into securities transactions with the Trust during the year.

Wesleyan International Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £40,859 was due to the Manager at the year end (30 June 2021: £86,085).

Wesleyan Low Risk Reward Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £39,895 was due to the Manager at the year end (30 June 2021: £ 71,658).

Wesleyan Moderate-High Risk/Reward Income Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £32,506 was due to the Manager at the year end (30 June 2021: £54,155).

Wesleyan Moderate Risk/Reward Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £78,968 was due to the Manager at the year end (30 June 2021: £130,487).

Wesleyan Risk Averse Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £168 was due to the Manager at the year end (30 June 2021: £349).

Wesleyan UK Growth Fund

Amounts paid to Wesleyan Unit Trust Managers Ltd in respect of Manager's periodic charge are disclosed in note 4 (expenses). £52,657 was due to the Manager at the year end (30 June 2021: £106,821).

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

13. RISK DISCLOSURES ON FINANCIAL INSTRUMENTS

In pursuing its investment objectives the Trust holds a number of financial instruments. The Trust's financial instruments comprise securities and other investments, cash balances, debtors and creditors that arise directly from its operations, for example, amounts receivable for creations and payable on liquidations, and debtors for accrued revenue.

The Trust has little exposure to credit or cash flow risk as all its transactions are settled in cash against delivery and therefore the failure of a third-party broker will not give rise to a loss. There are no material borrowings or unlisted securities and so there is little exposure to liquidity risk.

The main risks it faces arising from its financial instruments are (i) foreign currency risk; (ii) market price risk, being the risk that the value of holdings will fluctuate as a result of changes in market prices caused by factors other than interest rate or currency movement; (iii) interest rate risk and (iv) liquidity risk (v) credit risk.

The Manager's policies for managing these risks are summarised below and have been applied throughout the current and preceding year.

Risk management process

The stock selection and asset allocations of the portfolios are reviewed at periodic Board meetings. Consideration is given to whether the risk associated with the exposure to particular investment categories or stocks is prudent in the context of the investment objective. The Investment Manager has the responsibility for monitoring existing portfolios in accordance with an overall investment category deviation parameter and seeks to ensure that the portfolios as a whole meet an acceptable risk/reward profile.

(i) Foreign Currency risk**Wesleyan International Growth Fund**

A substantial proportion of net assets of the Trust are denominated in currencies other than sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2022			Net Currency assets 30 June 2021		
	Monetary exposures £	Non-monetary exposures £	Total £	Monetary exposures £	Non-monetary exposures £	Total £
Canadian Dollar	6,904	-	6,904	6,322	-	6,322
Danish Krone	82,054	1,331,144	1,413,198	67,832	1,091,043	1,158,875
Euro	219,325	6,881,525	7,100,850	117,988	7,911,676	8,029,664
Japanese Yen	18,716	142,143	160,859	42,498	-	42,498
Sterling	925,476	8,651,983	9,577,459	178,198	9,955,514	10,133,712
Swedish Krona	1,197	-	1,197	1,261	-	1,261
Swiss Franc	132,559	1,353,653	1,486,212	98,807	1,363,802	1,462,609
US Dollar	263,473	16,546,608	16,810,081	169,986	19,236,609	19,406,595
Total	1,649,704	34,907,056	36,556,760	682,892	39,558,644	40,241,536

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £2,697,930 (30 June 2021 : £3,010,782). A 10% decrease would have an equal and opposite effect. These calculations assume all other variables remain constant.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

Wesleyan Low Risk/Reward Growth Fund

A proportion of net assets of the Trust are denominated in currencies other than sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2022			Net Currency assets 30 June 2021		
	Monetary exposures	Non-monetary exposures	Total	Monetary exposures	Non-monetary exposures	Total
	£	£	£	£	£	£
Euro	113,502	947,798	1,061,300	22,438	187,958	210,396

Swiss Franc	8,628	116,414	125,042	5,462	60,050	65,512
US Dollar	28,576	2,966,670	2,995,246	8,225	2,135,404	2,143,629
Total	2,454,759	25,481,735	27,936,494	2,013,621	21,457,658	23,471,279

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £512,928 (30 June 2021 : £358,798). A 10% decrease would have an equal and opposite effect. These calculations assume all other variables remain constant.

Wesleyan Moderate Risk/Reward Growth Fund

A substantial proportion of net assets of the Trust are denominated in currencies other than sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2022			Net Currency assets 30 June 2021		
	Monetary exposures £	Non-monetary exposures £	Total £	Monetary exposures £	Non-monetary exposures £	Total £
Euro	357,760	4,490,925	4,848,685	403,730	3,453,068	3,856,798
Sterling	4,249,125	58,362,976	62,612,101	5,272,475	47,618,866	52,891,341
Swiss Franc	28,247	244,630	272,877	21,491	243,750	265,241
US Dollar	505,936	4,961,731	5,467,667	259,857	4,012,492	4,272,349
Total	5,141,068	68,060,262	73,201,330	5,957,553	55,328,176	61,285,729

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £1,058,923 (30 June 2021 : £839,439). A 10% decrease would have an equal and opposite effect. These calculations assume all other variables remain constant.

Wesleyan Risk Averse Fund

No portion of net assets of the Trust are denominated in currencies other than sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Wesleyan UK Growth Fund

A proportion of net assets of the Trust are denominated in currencies other than sterling, with the effect that the balance sheet and total return can be affected by currency movements.

Currency risk profile

The currency risk profile of the Trust's net assets and liabilities at the balance sheet date was as follows:

Currency	Net Currency assets 30 June 2022			Net Currency assets 30 June 2021		
	Monetary exposures £	Non-monetary exposures £	Total £	Monetary exposures £	Non-monetary exposures £	Total £
Euro	52,756	-	52,756	44,363	-	44,363
Sterling	1,211,977	57,539,041	58,751,018	698,477	60,690,735	61,389,212
US Dollar	100,158	-	100,158	7,369	-	7,369
Total	1,364,891	57,539,041	58,903,932	750,209	60,690,735	61,440,944

If Sterling to foreign currency exchange rates had increased by 10% as at the balance sheet date, the net asset value of the Trust would have decreased by £15,291 (30 June 2021 : £5,173). A 10% decrease would have an equal and opposite effect. These calculations assume all other variables remain constant.

NOTES TO THE TRUST'S FINANCIAL STATEMENTS continued

(ii) Market Price Risk

The Trust's investment portfolio is exposed to market price fluctuations which are monitored by the Manager in pursuance of the investment objective and policy set out in the general information page for each fund.

Adherence to investment guidelines and to investment and borrowing powers set out in the Trust Deed, Scheme Particulars and in the rules of the FCA's Collective Investment Schemes Sourcebook mitigates the risk of excessive exposure to any particular type of security or issuer.

Price risk sensitivity

Wesleyan International Growth Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £3,490,706 (30 June 2021: £3,955,864). A 10% decrease would have an equal and opposite effect.

Wesleyan Low Risk/Reward Growth Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £3,746,653 (30 June 2021: £3,389,067). A 10% decrease would have an equal and opposite effect.

Wesleyan Moderate-High Risk/Reward Income Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £2,548,174 (30 June 2021: £2,145,766). A 10% decrease would have an equal and opposite effect.

Wesleyan Moderate Risk/Reward Growth Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £6,806,026 (30 June 2021: £5,532,818). A 10% decrease would have an equal and opposite effect.

Wesleyan Risk Averse Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £218,603 (30 June 2021: £234,826). A 10% decrease would have an equal and opposite effect.

Wesleyan UK Growth Fund

A 10% increase in the value of the Fund's portfolio would have the effect of increasing the net assets by £5,753,904 (30 June 2021: £6,069,074). A 10% decrease would have an equal and opposite effect.

(iii) Interest rate risk

The interest rate risk profile of the Trust's financial assets and liabilities at 30 June 2022 compared to the previous year end was:

Wesleyan International Growth Fund

The only significant interest-bearing assets are cash balances of £1,602,499 (30 June 2021: £713,931), which earn interest by reference to LIBOR or its overseas equivalent.

There are no significant interest-paying liabilities (30 June 2021: £nil).

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

Wesleyan Low Risk/Reward Growth Fund

Wesleyan UK Growth Fund

The only significant interest-bearing assets are cash balances of £1,274,310 (30 June 2021: £641,953), which earn interest by reference to LIBOR or its overseas equivalent.

There are no significant interest-paying liabilities (30 June 2021: £nil).

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

(iv) Inflation risk

Inflation erodes the real (buying power) value of future income payments or capital repayment. Consequently, where these future payments are fixed in nominal terms, as is the case with bonds, a rise in inflation will reduce the present value of the financial instrument in question. The further in the future that the payments are to be made, the greater the negative impact will be of an increase in inflation, since the erosion of the value will accumulate over a greater number of years. Hence, fixed rate bonds with many years to maturity will be most at risk from a rise in inflation. The returns from cash deposits can vary and may even benefit from an increase in anticipated inflation if it is associated with an increase in current interest rates. As a result, cash holdings may or may not suffer from an increase in anticipated inflation.

(v) Liquidity risk

The Fund's assets are comprised of mainly readily realisable securities. If insufficient cash is available to finance unitholder redemptions then securities held by the Fund may need to be sold. The risk of low market liquidity, through reduced trading volumes, may affect the ability of the Fund to trade financial instruments at values previously indicated by financial brokers. From time to time, liquidity may also be affected by stock specific or economic events. To manage these risks the Manager performs market research in order to achieve the best price for any transactions entered into on behalf of the Fund. All stocks are valued daily but those stocks identified as being less liquid are reviewed on a regular basis for pricing accuracy.

(vi) Credit risk

The Fund's transactions in securities expose it to the risk that the counterparty will not deliver the investment for a purchase or the cash for a sale. To minimise this, the Fund only deals with an approved list of brokers maintained by the Manager.

Commissions and taxes as % of average Net Assets

Commissions	0.00%
Taxes	0.00%
Expenses	0.00%

In the case of shares, commissions and taxes are paid by the Fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the average dealing spread was 0.22% (30 June 2021: 0.13%).

In the case of shares, commissions and taxes are paid by the Fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the average dealing spread was 0.21% (30 June 2021: 0.20%).

Wesleyan Risk Averse Fund

There were no transaction costs relating to the purchase or sales of assets during the year (30 June 2021: £Nil)

In the case of shares, commissions and taxes are paid by the Fund on each transaction. In addition, there is a dealing spread between the buying and selling prices of the underlying investments. Unlike shares, other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment. At the balance sheet date the average dealing spread was 0.08% (30 June 2021: 0.05%).

15. FAIR VALUE OF INVESTMENTS

The fair value of investments has been determined using the following hierarchy :

- Category 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Category 2 Input other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Category 3 Input are unobservable (i.e. for which market data is unavailable) for the asset of liability.

AUTHORISED FUND MANAGER'S RESPONSIBILITIES STATEMENT

The Collective Investment Schemes source book ("COLL"), as issued (and amended) by the Financial Conduct Authority (FCA) requires the Manager to prepare the annual report and financial statements for each financial year which give a true and fair view of the financial affairs of the Scheme and of its net revenue and net losses for the year.

In preparing the financial statements the Manager is required to:

- a) Select suitable accounting policies and then apply them consistently.
- b) Comply with requirements of the Statement of Recommended Practice for Authorised Funds issued by the Investment Management Association in May 2014. Previously the requirements for the Statement of Recommended Practice (SORP) issued by the Investment Management Association had been applied as amended in June 2017.
- c) Follow generally accepted accounting principles and applicable net asset value accounting standards.
- d) Keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.
- e) Make judgements and estimates that are reasonable and prudent.
- f) Prepare the financial statements on the going concern basis unless it is inappropriate to presume that this Scheme will continue in operation.

The Manager is responsible for the management of the Scheme in accordance with its Trust Deed, Prospectus and COLL. The Manager is also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Manager confirms that suitable accounting policies have been used and applied consistently and reasonable and prudent judgement and estimates have been made in the preparation of the financial statements for the year ended 30 June 2022. The Manager also confirms that applicable accounting standards have been followed.

UCITS V Remuneration (Unaudited)

Here at Wesleyan Group of companies, we are required to report annually on our Remuneration Governance Process as well as detailing our Remuneration Policies and Practices set as part of the Remuneration Code. This has been implemented by FCA under the Capital Requirements Directive and the Financial Service Act 2010.

The Remuneration Committee here at Wesleyan Group of companies has established a remuneration policy ensuring the UCITS Directive requirements are met for UCITS Material Risk Takers (UCITS MRTs). UCITS MRTs here at WUTM comprise of individuals in roles that significantly affect risks of WUTM or any UCITS fund that we manage. These roles have been identified in accordance with requirements set out by the UCITS Directive as well as guidance issued by the European Securities and Market Authority.

Meeting on a regular basis, our Remuneration Committee establish the Group's remuneration principles and oversee our governance. Together with the WUTM Board, WUTM remuneration strategy is also reviewed at least on an annual basis. Our Committee is comprised of three non-Executive Directors. Our Committee is also responsible for remuneration on our senior level employees with a specific review on identified Code Staff such as heads of Control Functions.

Remuneration total expenditure is determined based on a share in profit ratio. It measures fixed pay such as salary and benefits as well as variable pay such as performance against the pre-bonus profit of the Group. It is also based on a total compensation ratio that measures total remuneration expenses against net income. By doing this our employee interests are aligned with our performance. When determining our remuneration expenditure each year, the strength and sustainability of the Group is factored in alongside reports on risk, legal and compliance matters from heads of the Control Functions in question.

The remuneration data below reflects amounts paid for the year ended 30 June 2022 for WUTM.

The total remuneration paid by WUTM to its staff and those staff in its parent undertaking that undertake duties relating to WUTM was £633,213 and all relates to fixed remuneration.

The following relates to UCITS MRTs of WUTM who were employed by and provided services to other entities of Wesleyan Group of Companies for the year ended 30 June 2022. Portions of their remuneration is included in the aggregated figures below, based on apportionment of their roles attributed to WUTM or the UCITS fund that it manages. The aggregated total remuneration paid to the 47 UCITS MRTs of WUTM was £633,213, of which £436,701 was paid to senior management, £142,552 to MRTs deemed to be risk takers of WUTM or the UCITS fund that it manages and £53,960 to other UCITS MRTs.

More information on our Remuneration Policies and Practices is available at www.wesleyan.co.uk/ucits

Assessment of Value

WUTM separately produces an assessment of value report covering each unit class of the funds it manages. This will be published on 31 October 2022 and available at <https://www.wesleyan.co.uk/about/reports-and-accounts>.

RESPONSIBILITIES AND REPORT OF THE TRUSTEE

STATEMENT OF THE TRUSTEE'S RESPONSIBILITIES IN RESPECT OF THE SCHEME AND REPORT OF THE DEPOSITARY TO THE UNITHOLDERS OF THE WESLEYAN UNIT TRUST MANAGERS ("THE TRUST") FOR THE PERIOD ENDED 30TH JUNE 2022

The Depositary in its capacity as Trustee of Wesleyan Unit Trust Managers must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- a) the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- b) the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- c) the value of units of the Trust are calculated in accordance with the Regulations;
- d) any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- e) the Trust's income is applied in accordance with the Regulations; and
- f) the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Depositary also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents of the Trust in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Trust, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Trust, acting through the AFM:

- i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF WESLEYAN AUTHORISED UNIT TRUST

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Wesleyan Authorised Unit Trust ("the Trust") comprising each of its funds, for the year ended 30 June 2022 which comprise the Statement of Total Return and the Statement of Change in Net Assets Attributable to Unit Holders together with the Balance Sheet for each of the Trust's funds, the accounting policies and risk profile of the Trust, the related notes for each fund and the Distribution Tables, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) including FRS 102 'The Financial Reporting Standard applicable to the UK and Republic of Ireland'.

In our opinion, the financial statements:

- ▶ give a true and fair view of the financial position of the Trust comprising each of its funds as at 30 June 2022 and of the net revenue and the net capital losses on the scheme property of the Trust comprising each of its funds for the year then ended; and
- ▶ have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the financial statements, we have concluded that the Fund Manager's ("the Manager") use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Trust's ability to continue as a going concern for a period of 12 months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Manager with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Trust's ability to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF WESLEYAN AUTHORISED UNIT TRUST

OTHER INFORMATION

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The Manager is responsible for the other information contained within the Annual Report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE RULES OF THE COLLECTIVE INVESTMENT SCHEMES SOURCEBOOK OF THE FINANCIAL CONDUCT AUTHORITY

In our opinion:

- ▶ the financial statements have been properly prepared in accordance with the Statement of Recommended Practice relating to Authorised Funds, the rules of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority and the Trust Deed;
- ▶ the information given in the Manager's report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- ▶ there is nothing to indicate that proper accounting records have not been kept or that the financial statements are not in agreement with those records.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matter in relation to which the Collective Investment Schemes Sourcebook of the Financial Conduct Authority rules requires us to report to you if, in our opinion:

- ▶ we have not received all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit

RESPONSIBILITIES OF THE MANAGER

As explained more fully in the Manager's responsibilities statement set out on page 149, the Manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as

the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

EXPLANATION AS TO WHAT EXTENT THE AUDIT WAS CONSIDERED CAPABLE OF DETECTING IRREGULARITIES, INCLUDING FRAUD

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

Our approach was as follows:

We obtained an understanding of the legal and regulatory frameworks that are applicable to the Trust and determined that the most significant are United Kingdom Generally Accepted Accounting Practice, the Investment Management Association Statement of Recommended practice (the "IMA SORP"), the FCA Collective Investment Schemes Sourcebook, the Fund's Trust Deed and the Prospectus.

We understood how the Trust is complying with those frameworks through discussions with the Manager and the Trust's administrator and a review of the Trust's documented policies and procedures.

We assessed the susceptibility of the Trust's financial statements to material misstatement, including how fraud might occur by considering the risk of management override, specifically management's propensity to influence revenue and amounts available for distribution. We identified a fraud risk with respect to the incomplete or inaccurate income recognition through incorrect classification of special dividends and the resulting impact to amounts available for distribution. We tested the appropriateness of management's classification of material special dividends as either a capital or revenue return and incorporated unpredictability into the nature, timing and extent of our testing.

Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved review of the reporting to the Manager with respect to the application of the documented policies and procedures and review of the financial statements to test compliance with the reporting requirements of the Trust.

Due to the regulated nature of the Trust, the Statutory Auditor considered the experience and expertise of the engagement team to ensure that the team had the appropriate competence and capabilities to identify non-compliance with the applicable laws and regulations.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

USE OF OUR REPORT

This report is made solely to the Trust's unitholders, as a body, pursuant to Paragraph 4.5.12 of the rules of the Collective Investment Schemes Sourcebook of the Financial Conduct Authority. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Ernst & Young LLP, Statutory Auditor, Edinburgh

28 October 2022

Notes:

1. The maintenance and integrity of the Wesleyan Authorised Unit Trust website is the responsibility of the manager; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the web site.
2. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.
