Oxford House Case Study

When the Patels were looking to acquire their first dental practice, Oxford House, they were referred by a peer to Wesleyan Bank. "Our dedicated account manager was keen to get under the skin of what we wanted to achieve, quickly setting up a meeting to discuss the business plan and what we would be able to borrow. Using Wesleyan Bank for finance goes beyond just having a loan - they stay with you after you've bought the business and continue to support and advise you on what they think is the next best move. Being able to gain the finance we needed to buy the practice, meant that we have now realised our dream of running a growing family run business where we can both work together."
