ASSET FINANCE FOR DENTAL PRACTICES

INVEST IN THE FUTURE OF YOUR PRACTICE

Supporting your practice growth

Setting up, running and maintaining your dental practice can be costly. On average the establishment of a treatment room can cost between £20 - £50,000. Regulation and advancements in treatment technology means there is also an ongoing need to maintain and upgrade your equipment over time. Sometimes these costs come at a time that isn't convenient or when you are faced with a dilemma about how to use the cash that your business holds.

Using our asset finance solution you can spread these costs over a one to five year period allowing you to carry out the required maintenance, new equipment purchase or treatment introduction without dipping in to your reserves of cash or existing banking lines.

Key benefits

- ▶ Spread the cost of your investment over 1 to 5 years
- ▶ Quicker ROI and breakeven point
