

CHAIR'S ANNUAL REPORT:
The PTL Governance Advisory Arrangement
Wesleyan workplace personal pension plans

March 2017

1. Introduction and Executive Summary

This report on the workplace personal pension plans provided by Wesleyan has been prepared by the Chair of the PTL Governance Advisory Arrangement (“the GAA”). It is our second annual report.

This report sets out our assessment of the value for money delivered to policyholders (see Section 2). It also explains the background and credentials of the GAA (see Appendix 3). The GAA works under Terms of Reference, agreed with Wesleyan, effective from 6 April 2015. These are publicly available (see Appendix 3).

This report focuses on workplace personal pensions, including various types of policy, each with slightly different charging structures. It excludes the Wesleyan Staff Scheme. Details about the numbers of policyholders and their funds are shown in Appendix 1.

The GAA believes that deciding what represents “value for money” is subjective and that value for money will mean different things to different people. We think value for money can be judged by looking at the balance of all the costs paid by policyholders against the benefits and services provided from their policy.

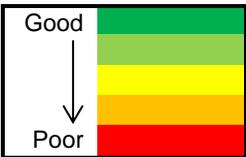

The GAA’s opinion on the value for money delivered is that:

- **Workplace personal pensions with an Annual Management Charge (AMC) of 0.75% offer reasonable to good value for money.**
- **Workplace personal pensions with an AMC of 0.9% or 1.0% offer reasonable value for money.**

See Section 2 and Appendix 2 for more details of the value for money assessment.

A colour-coded summary of our value for money assessment is shown below:

	GPPs & GSPs	GRAs
Investments		
Communications and support		
Risk Management: Operational and Financial		
Other factors: administration, options at retirement, etc.		
Overall benefit:		
Level of charges		
Overall value for money assessment		

The GAA has not raised any formal concerns with Wesleyan during the year (see Section 3.3).

Arrangements have been put in place to ensure that the views of the policyholders can be directly represented to the GAA (see Section 3.4).

If you are a policyholder and have any questions, require any further information or wish to make any representation to the GAA you should contact:

Richard Balfour, Wesleyan Assurance Society, Colmore Circus, Birmingham, B4 6AR.

2. Value for money assessment

The GAA has assessed the value for money delivered by Wesleyan to its workplace personal pension policyholders by looking at cost versus benefits. More detail about how we have done this is set out in Appendix 2.

Key highlights of our assessment for Workplace Personal Pensions

- All policyholders must select an investment option for the workplace personal pensions. The GAA understands that all policyholders would have received financial advice on their investment fund choice on joining. However, the GAA has not seen evidence of this.
- The annual statement of benefits for policyholders provides details of the funds the policyholder is invested in. This includes analysis of the relative level of risk of the chosen investment options. However, there is no communication suggesting that the policyholder may wish to consider whether their investment choices remain appropriate. This would be helpful, particularly for those policyholders who don't have lifestyling.
- The objectives of each investment fund are clearly stated and published in factsheets.
- Investment performance is reviewed monthly. However, evidence of any subsequent action taken is limited.
- Wesleyan believes that their long-term investment approach leads to relatively low portfolio turnover and relatively low transaction costs. Limited transaction cost data has been made available to the GAA which would seem to support this opinion. Further analysis and data will be sought before any meaningful conclusions are reached.
- Administration is carried out by Life & Pensions. Policyholder support in terms of administration and communication is generally of a high-level.

The GAA's opinion on the value for money delivered is that the workplace personal pensions with annual charges around 0.75% per annum represent reasonable to good value for money. Those with higher charges of 0.9% pa or 1% pa represent reasonable value for money.

3. GAA activity and regulatory matters

This section describes the work that the GAA has done over the year and also covers the other matters which we are required to include in our annual report.

3.1 GAA engagement and actions this year

We prepared and issued a request for data on all the relevant workplace pension policies on 12 May 2016.

On 27 June 2016, members of the GAA visited Wesleyan to meet our main contact and representatives from the investment and administration teams. We discussed how the investment funds are managed and governed. We visited the administration teams to see in detail how some of their work is carried out and how they deal with policyholders, as well as meeting managers to discuss service standards and how these are monitored and managed.

The GAA held 7 meetings during the year to review and discuss the information we had received and to develop and improve the way that we assess value for money and report on this.

3.2 Independent Project Board (IPB)

The IPB issued a report into workplace pensions in December 2014 following a previous report from the Office of Fair Trading in 2013. The FCA required all pension providers who were subject to the IPB report to make proposals to governance committees (in this case the GAA) by 30 June 2015, and for the provider to agree a plan to address the risk of high charges of workplace pension savers in group pension arrangements. Wesleyan provided their proposals to the GAA in line with this timescale and proposals were agreed with the GAA for this purpose.

The proposals were successfully implemented as follows:

- Any AMCs in excess of 1.0% for GPPs were reduced to 1.0% with effect from 31 December 2015
- Policy fees for GRAs were removed with effect from 31 October 2015.

3.3 Concerns and challenges raised with the Provider by the GAA and their response

In the first year, Wesleyan had been challenged by the IPB process to review charges over 1% per annum. In discussion with the GAA this led to the steps shown in section 3.2.

The GAA has raised a number of challenges with Wesleyan for their consideration, these are:

- Wesleyan, like all Firms, should continually examine the scope for further reductions in charges where these may be feasible. In particular, charges vary between contracts. Also, the IPB threshold of 1% per annum is inclusive of transaction costs. The 1% annual management charge for some Wesleyan contracts excludes transaction costs taking the total charge over this threshold.
- To date Wesleyan have not been able to provide definitive data on transaction costs. The GAA has re-affirmed its request for this information and will continue to push for information on transaction costs.
- Investment options are limited for the workplace pensions and consideration could be given to extending this range.
- Lifestyling is not available on all the workplace policies. Consideration could be given to reminding these policyholders that they should consider the ongoing appropriateness of the investment funds that they have chosen.

3.4 The arrangements put in place for policyholders' representation

The following arrangements have been put in place to ensure that the views of policyholders can be directly represented to the GAA:

The role of the GAA and the opportunity for policyholders to make representations direct to the GAA has been communicated via the Wesleyan website and has been highlighted on annual benefit statements since April 2016. A paragraph has been added to the Key Features Document for any new policyholders. Wesleyan have been pro-active in making policyholders aware of the GAA and its role.

Wesleyan will receive and filter all policyholder communications, to ensure that this channel is not being used for individual complaints and queries rather than more general representations which may be applicable to more than one policyholder or group of policyholders. Where Wesleyan determines that a communication from a policyholder is a representation to the GAA, it will be passed on in full and without editing or comment for the GAA to consider.

4. Next Steps

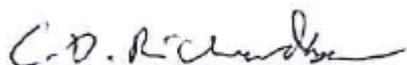

This GAA report is for the year to 5 April 2017. The process of annual reports under the FCA requirements is ongoing and further annual reports will be required.

In the next year the GAA will look in further detail at the:

- Any potential considerations for further charge reductions
- Level of transaction costs for the individual funds
- Investment review process.

If you are a policyholder this report is for your information only and you do not have to take any action. If you do have any questions, require any further information or wish to make any representation to the GAA you should contact Wesleyan at the address shown below:

Richard Balfour, Wesleyan Assurance Society, Colmore Circus, Birmingham, B4 6AR.

Colin Richardson
Chair: PTL Governance Advisory Arrangement

Appendix 1

Summary of workplace personal pensions data at June 2016

	Group Personal and Stakeholder Pensions			Group Retirement Account
Charges	AMC of 0.9%	AMC of 1.0%	AMC reduced to 1.0% (previously higher)	AMC of 0.75%
Number of Policyholders	477	308	46	575
Assets under management	£6.9m	£2.8m	£0.5m	£8.2m

Wesleyan have confirmed that all policyholders with workplace pensions can be identified from Wesleyan's data.

Appendix 2

Value for money assessment

The GAA believes that value for money is necessarily highly subjective and will mean different things to different people over time, depending on what they consider important at that time. What is clear is that it is always a balance of cost versus benefits. There is not enough publicly available data to perfectly assess value for money in an absolute or relative way. We have, however, been able to carry out limited relative comparison of the costs and benefits of these workplace personal pension plans with similar products from similar providers.

The GAA has assessed the value for money delivered by Wesleyan to its workplace personal pension policyholders by looking at costs compared against our evaluation of the quality of the benefits.

We have looked at the benefits offered to policyholders in three main areas – investment, communications and administration – together with other features such as the range of options available at retirement. In making our overall assessment of the quality of the benefits and standards achieved, where possible we have taken into account the likely needs and expectations of this group of policyholders, based on the information available to us.

We have looked at the total ongoing cost of the policy by analysing all the charges, which may be applied in a number of different ways.

Finally, we have considered the quality of benefits offered versus the charges deducted, to reach an overall opinion on value for money. Where possible, we have formed our opinion taking into account the benefits and charges of other similar providers.

In each area of benefits, in the tables on the next few pages we have described the features in the left hand column, based on the information given to us. Our opinion on quality is given alongside in the right hand column.

Where we have used technical pensions terms or jargon, these are explained in the glossary at the back of this report.

<i>Investment - Design and performance of investment strategies</i>	
<p>There is no default option for the workplace personal pensions. Lifestyling is available for Group Stakeholder policies, which phases from Managed to Deposit over the 5 years before the individual's Selected Retirement Age. Post April 2005 policyholders are opted in to lifestyling, whilst pre April 2005 policyholders are opted out.</p> <p>Top-up contributions during the lifestyling period are automatically invested in the Deposit Fund unless otherwise directed.</p>	<p>Whilst there is no default for the workplace personal pensions, we understand that policyholders were provided with advice on fund choice on joining. However, the GAA has not seen any evidence of this.</p> <p>The default lifestyling, particularly for Group Stakeholder policies, results in a relatively cautious investment strategy at retirement age. This may be suitable for many but not all policyholders.</p>
<i>Investment – Fund range available</i>	
<p>Group Personal Pensions (GPPs) and Group Retirement Accounts (GRAs) have 3 investment options, namely Managed, Deposit and With Profits. For Group Stakeholder Pensions (GSPs) there are 2 investment options, Managed and Deposit.</p> <p>All funds are managed by Wesleyan.</p>	<p>For the workplace personal pensions, the investment choices appear fairly limited.</p> <p>Policyholders of the workplace personal pensions can move into an individual personal pension product with no exit fee, to access a wider choice of specialist funds. This is a useful facility.</p>
<i>Investment - How investment performance of the fund range is reviewed and any changes made</i>	
<p>All funds have a statement of objectives which are published in factsheets. Performance is reviewed monthly.</p> <p>In addition, the With Profits committee reviews performance of the With Profits Fund on a quarterly basis.</p> <p>The investment philosophy is a “buy and hold” strategy with low turnover.</p>	<p>Information on investment performance has been provided but, for the purposes of this report, the GAA has not reviewed in detail the investment performance of each available fund by reference to consistency with its objectives and the expected degree of volatility.</p>

Description of arrangements

GAA assessment and opinion

	<p>Investment performance is reviewed on a monthly basis, although evidence of any subsequent actions taken is limited.</p> <p>The investment management is fairly cautious. Aggressive funds are not available although most policyholders may not be expecting such funds from Wesleyan. The philosophy is clear and the investment team is stable.</p> <p>The volatility within the main funds is very consistent over time showing careful management.</p>
<p><i>Communications and Support - Statement of aims and objectives of investment strategies</i></p>	
<p>Factsheets are available setting out the stated aims and objectives of the investment strategies.</p>	<p>In our opinion, communication of the stated aims and objectives of the investment strategies is satisfactory.</p>
<p><i>Communications and Support – Overall quality of written communications, including education on pension saving</i></p>	
<p>Sample policyholder communications have been provided including an annual benefit statement, pre-retirement wake up letter or pack, and retirement option packs.</p> <p>Policyholders of the workplace personal pensions can contact Wesleyan Head Office to speak to a dedicated pensions team for general information. There is also the option to seek further specialist advice from their Wesleyan Financial Consultant.</p>	<p>In our opinion, policyholder communications are of a good standard overall and policyholders have access to very good telephone and online support.</p>

Description of arrangements

GAA assessment and opinion

<i>Communications and Support - Other support, including telephone and online,</i>	
Policy information and requests for changes are available online if a policyholder registers for the My Wesleyan facility. There is also a secure online web chat facility.	In our opinion, policyholders have access to good telephone and online support.
<i>Communications and Support - When choosing retirement options</i>	
<p>Policyholders of the workplace personal pensions can contact Wesleyan Head Office to speak to a dedicated pensions team for general information. There is also the option to seek further specialist advice from their Wesleyan Financial Consultant.</p> <p>Policy information and requests for changes are available online if a policyholder registers for the My Wesleyan facility. There is also a secure online web chat facility.</p> <p>Wesleyan issue a series of “wake-up” communications to policyholders before the expected retirement date. These commence within 5 or 10 years from retirement according to policy type.</p>	Communications are generally of a high quality. Workplace pension policyholders can contact their Wesleyan Financial Consultant.
<i>Risk Management – operational and financial</i>	
<p>Security of IT systems is covered by a detailed policy, which we have had sight of.</p> <p>The financial strength of Wesleyan was rated as 10/10 by Cazalet in 2014.</p> <p>Internal controls are achieved through three levels of function:</p> <ul style="list-style-type: none"> • Business Operations • Oversight Functions (e.g. Risk and Regulatory) • Corporate Audit. <p>There is a regular process of internal product review to ensure that products remain fit for purpose and suitable for policyholders.</p>	

<p><i>Administration service and core financial transactions</i></p>	
<p>Administration is carried out in house by a team based in Birmingham and evidence has been provided of performance against service standards.</p> <p>We met members of the administration team on 27 June 2016. Information on how service standards are being achieved has been supplied. Service levels are monitored daily.</p>	<p>The GAA's meeting with the administration team showed a well resourced team committed to good service for the benefit of policyholders.</p> <p>We believe that the administration service provided to policyholders is of a good standard and that core financial transactions are processed promptly and accurately. Service levels achieved are high and are monitored closely.</p> <p>There are additional financial benefits to policyholders by virtue of their membership of these workplace pension schemes.</p>
<p><i>Other governance or support arrangements</i></p>	
<p>Additional governance structures for the benefit of policyholders include the with-profits committee for relevant policyholders.</p> <p>There are additional benefits to policyholders by virtue of their membership of the Wesleyan, as follows:</p> <ul style="list-style-type: none"> • Policyholders are entitled to participate in the Annual General Meeting, which gives them a say in the administration of Wesleyan • Policyholders receive a discount on general insurance policies taken out with Wesleyan. 	<p>There is relatively strong governance in place.</p>

Retirement options	
At retirement, Policyholders have access to the full range of flexibilities, except that they must make an internal transfer into the latest personal pension policy if they wish to draw benefits through Flexi-Access Drawdown (FAD). No penalty applies to this transfer.	The range of flexibilities at retirement is good.
Charges and direct and indirect costs borne by policyholders	
<p>For policyholders of Group Personal Pensions, the AMC is generally 0.9% for plans issued before 6 April 2003 and 1% for plans issued after 6 April 2003.</p> <p>For the Group Stakeholder Pensions, the AMC is 0.9% for plans issued before 6 April 2003 and 1% for plans issued after 6 April 2003.</p> <p>For the Group Retirement Accounts, the AMC is 0.75%.</p> <p>Transaction costs</p> <p>Transaction costs will also be borne by policyholders, based on their underlying investments. Limited information regarding transaction costs has been made available to the GAA. Further analysis and data will be sought.</p> <p>Wesleyan state that commission paid to brokers is compared against the quality of service received.</p>	<p>An AMC of 0.9% or 1.0% represents a level of charge that is around average amongst providers who were part of the IPB review, based on the GAA's experience.</p> <p>An AMC of 0.75% represents a level of charges that is below average amongst providers who were part of the IPB review, based on the GAA's experience.</p> <p>The investment philosophy of Wesleyan leads to an expectation that transaction costs are maintained at a reasonable level. The limited transaction cost data provided to date would seem to support this opinion. However, further analysis and data will be required before any meaningful conclusion can be reached.</p> <p>The GAA will continue to request information on such costs.</p>

Overall assessment of value for money

The GAA's opinion on the value for money delivered is that the workplace personal pensions with annual management charges around 0.75% per annum represent reasonable to good value for money. Those with higher charges of 0.9% pa or 1% pa represent reasonable value for money.

Appendix 3

Background and credentials of the PTL Governance Advisory Arrangement

In February 2015 the Financial Conduct Authority (FCA) set out new rules for providers operating workplace personal pension plans (called relevant schemes) to take effect from 6 April 2015. From that date, providers had to have set up an Independent Governance Committee or appointed a Governance Advisory Arrangement whose principal functions would be to:

- Act solely in the interests of the relevant policyholders of those pension plans and to
- Assess the “value for money” delivered by the pension plans to those relevant policyholders.

The FCA rules also require that the Chair of each Independent Governance Committee and Governance Advisory Arrangement produce an annual report setting out a number of prescribed matters.

The PTL Governance Advisory Arrangement was established on 6 April 2015 and has been appointed by a number of workplace personal pension providers. PTL is a specialist provider of independent governance services primarily to UK pension arrangements. Amongst other appointments we act as an independent trustee on several hundred trust based pension schemes and we sit on a number of IGCs. We have oversight or responsibility for in excess of £120bn of pension assets. More information on PTL can be found at www.ptluk.com.

All of PTL’s Client Directors have been appointed to the GAA. More information on each of them, their experience and qualifications can be found at <http://ptluk.com/team/>.

Dean Wetton is also a member of the GAA. Dean is independent of PTL. Information on his experience and qualifications can be found at <http://www.deanwettonadvisory.com/consultants/index.html>.

PTL, its Client Directors and Dean Wetton are independent of all of the providers participating in the GAA in so far as:

- They are not directors, managers, partners or employees of any of the providers, or any company within their groups, or paid by them for any role other than as members of the GAA, nor are they members of the share option or performance related pay schemes of any of the providers nor have they been within the last five years.
- They do not have a material business relationship of any description with any of the providers, or any company within their groups, and have not done so within the last three years.

Any potential conflicts of interest are recorded in a log and considered by the GAA in accordance with its conflict of interest policy.

The members of the GAA are appointed by the board of PTL. The board is satisfied that individually and collectively the members of the GAA have sufficient expertise, experience and independence to act in the interests of the members of the providers’ pension plans.

The terms of reference agreed with Wesleyan can be found at:

http://www.wesleyan.co.uk/pdf/62860/gaa_terms_of_reference

Glossary

“Annual Management Charge” or “AMC” means a deduction made by the pension provider or investment manager from invested assets, normally as a percentage of the assets. The AMC is generally how the pension provider or investment manager is paid for their services.

“Core financial transactions” means the essential processes of putting money into a pension policy or taking it out, namely:

- *Investment of contributions*
- *Implementation of re-direction of future contributions to a different fund*
- *Investment switches for existing funds, including lifestyling processes*
- *Settlement of benefits – whether arising from transfer out, death or retirement*

“Default investment strategy” means the investment funds into which contributions are invested for policyholders who do not select other specific investment funds from the full range of funds available.

“Lifestyling” means an automated process of switching investment strategy as a policyholder approaches retirement, in a way that is designed to reduce the risk of a policyholder’s retirement income falling.

“Transaction costs” means a combination of explicit and implicit costs included within the price at which a transaction (i.e. buying or selling an asset) takes place.

“With Profits” means an insurance contract that participates in the profits of an insurance company. The insurance company aims to distribute part of its profits to with-profits policy holders in the form of bonuses.
